Wi-Fi Smart Outlet

Dear Customer:

Thank you so much for choosing our Wi-Fi Smart Outlet. This product features the latest 2.4GHz wireless technology, the highest quality production, and reflects our many years of development expertise. This product can be fully controlled using the “smart home” app anywhere you have an internet connection. To facilitate the installation and use of the product, please read these instructions carefully.

I. Product Features

1. Wide Voltage Range Support.
2. Remote Control.
3. Wi-Fi Standard: 2.4GHz 802.11b/g/n.
4. Easy Onboarding.
5. State Indication.
6. Timing Support Up To 20 Sets.

II. Technical Parameters

- Product Dimensions: 68.5×63.5×56.5mm
- Net Weight: ≈82g
- Operating Voltage: AC90~240V 50/60Hz
- Rated Current: 10A
- Shell Material: PC UL94-V0
- Use Environment: Indoor
- Operating Temperature: 14 ℉ ~ 113 ℉
- Humidity Requirement: ≤80%RH
- Certification: FCC

III. How to use

1. Open the app, click “Register” and input your email address. The authentication code required to complete the registration process will be sent to your email.
2. Plug the Smart Outlet into the wall receptacle. Then, follow the instructions within the app to onboard the Outlet.
3. Plug the device you wish to control into the Smart Outlet. Now, you can use the app to turn your device on and off.

IV. Q&A

Q: What if I cannot onboard the Wi-Fi Smart Outlet?

A: a. The Outlet does not support 5GHz wireless networks.

Ensure you are connecting to a 2.4GHz network.

b. Ensure the Outlet and cell phone are connected to the same Wi-Fi network.

c. Ensure that you have entered the correct password in quick configuration.

d. Reset the device and conduct onboarding again.

Q: How can I reset the Smart Outlet?

A: If the Smart Outlet was previously configured, press and hold the button on the Smart Outlet for at least 5 seconds.

The LED will flicker rapidly to indicate the Outlet has been reset.

V. Notes

1. Do not use in a hot or humid environment.

2. Do not connect any appliances with a power rating larger than 2000W.

3. Do not use near a flammable, explosive, or corrosive environment.

4. Keep out the reach of children during operation.

VI. Declarations

We provide a 1-year warranty for this product given that it is used in accordance with this manual. The following situations do not apply to the warranty.

1. Any modifications or illegible writing present on the purchase receipt or product manual.
2. Malfunction caused by damage or misuse.
3. Malfunction caused by environmental factors such as lightning, flood, and fire.
4. The product was opened or disassembled.
5. Malfunction, deformation, breakage, or any other physical damage caused by external forces.

VII. Place of Origin

Customer Service Hotline: +86-400-968-5665

Product Origin: Shenzhen, China

Product Company: Hangzhou Liaison Interactive Information Technology Co.,Ltd

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator& your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
