

Charging stand S13 User manual

Product Introduction

The Charging stand is a wireless charger used combined with Joy Album K13 made by Joy Home, Inc.

Product Appearance

Suitable devices

Charging your Joy Album digital photo album

Prepare for worry-free wireless charging. The Joy Album comes with a smart dual-surface charging stand. Connect the charging stand to a power source by using the included power cable. Then set your album on either side of the charging stand-magnets will hold it in place and it will begin charging wirelessly.

Product Specification

| | |
|---------------------|----------------|
| Product name | Charging stand |
| operating frequency | 111-145KHz |

| | |
|--------------|------------------------------|
| Antenna gain | 0dbi |
| Antenna type | Internal type, coil antenna |
| Power supply | 100-240VAC, 50-60Hz, 0.7Amax |

Notice:

1. Don't steep the product and isolate liquid
2. Break the power if cleaning is needed
3. Keep use temperature between 0-34 °C

Cleaning and maintenance

Always disconnect the charger from the mains before cleaning. Clean product components with a soft, dry and lint-free cloth. Do not use chemical cleaners, scouring agents or liquids! Never immerse the device in water.

The product does not contain any parts which the user can repair. In the event of a defect, replace the entire assembly. Contact the manufacturer.

Disposal

Do not dispose of the charger and its components in the residential waste.

Follow the national disposal regulations.

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions
 - (1) This device may not cause harmful interference
 - (2) This device must accept any interference received, including interference that may cause undesired operation
2. This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is

connected.

- Consult the dealer or an experienced radio/ TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body

IC STATEMENT

Canadian Compliance

This device complies with Innovation , Science and Economic Development Canada

S licence-exempt RSSs

Operation is subject to the following conditions:

- 1.This device may not cause harmful interference.
- 2.This device must accept any interference received, including interference that may cause undesired operation.

Conformité à la réglementation canadienne

Le présent appareil est conforme aux CNR Innovation, Sciences et Développement économique Canada

applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- 1.l'appareil ne doit pas produire de brouillage;
- 2.l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This apparatus does not exceed the Class B limits for radio noise emissions from digital apparatus set out in the interference-causing equipment standard entitled: "Digital Apparatus," ICES-003 of the Canadian Department of Communications.

Cet appareil numérique respecte les limites bruits radioélectriques applicables aux appareils numériques de Classe B prescrites dans la norme sur le matériel brouilleur: "Appareils Numériques", NMB-003 édictée par le Ministre Canadien des Communications.
