

Haylou-T15
TWS BT Earphones
User Manual

Overview

What's in the Box

Eartips × 3 pairs, Bluetooth earphones, charging case, charging cable, manual

Basic Parameters

Operation range: 10m(with no obstacle)
Battery capacity: 43mAh(single earbud)
Charging time: approx. 1.5hr
Calling time: approx. 3.5hr
Standby time: approx. 150hr
Input parameter: 5V = 100mA
Battery type: li-ion
Bluetooth version: 5.0

Charging Case

Input parameter: 5V = 1000mA
Output parameter: 5V = 500mA
Charging time: approx. 3hr
Standby time: approx. 4 months
Battery capacity: 2200mAh
Battery type: Cylindrical Battery

How to wear

When calling, adjust Mic towards mouth to gain better talking experience.

How to Charge

Prior to using, please peel off sticker covering the pogo pins and top up the earphones.

Power-on

Take out earphones from the case to power on them. Or touch both panels for 1s to power on earphones (LED glows solid white) when they are not in the case.

Power-off

Put earphones into the case to power off them. Or touch both panels for 5s to power off earphones (LED glows solid red for 2s).

Stereo Mode

Auto pairing: take out both EarBuds from the case and they will auto pair with each other in 2 or 3s. Earphones will be connectable to cellphone when LED on either EarBud blinks white slowly. On cellphone, search for "Haylou-T15" and tap to connect. If earphones fail to be connected to cellphone, please put EarBuds back to the case and repeat the above steps. Earphones will auto reconnect to the last device in connectivity records, if any.

Note: earphones have been setted to factory when shipping out.

Manual pairing: manually power on two EarBuds and they will auto pair with each other when LED blinks white promptly. Then LED on the either EarBud will blink white slowly and now you can tap it on cellphone to connect.

Mono Mode

Auto pairing: take out one EarBud from the case to power on it. Its LED will soon blink slowly then search for Haylou-T15 on cellphone and tap to connect. EarBud will auto reconnect to last device in connectivity records, if any.

Note: it may take more time for the left EarBud to reconnect.

Manual pairing: manually power on one EarBud. Its LED will soon blink white slowly then search for Haylou-T15 on cellphone and tap to connect.

Functions

LEDs on Charging Case

All three battery level LEDs will blink 3 times then numbers of them will glow solid for 30s according to practical battery level whenever you open or close lid. (If you need to check battery level again, please close and re-open the lid again.)

Low battery warning: only one LED blinks white.

Battery Level Display:

Battery level LEDs	Battery level
■ ■ ■	Top-up
■ ■ ○	2/3
■ ○ ○	1/3
■ ○ ○	Low battery

Charging LED will glow solid red when charging and turn off once the case is topped up.

Caveats

1. Never disassemble or modify your headset for any reasons to avoid any damages and danger.
2. Do not store the headset in extreme temperatures (under 0°C or over 45°C).
3. Avoid using the indicator close to the eyes of children or animals.
4. Do not use this headset during a thunderstorm to avoid irregular function and increased risk of electric shock.
5. Do not use harsh chemicals or strong detergents to clean the headset.
6. Keep the headset dry.

! Factory Setting

If earphones do not function well, please refer the following steps to reset factory: take earbuds out from the case. Power off the earphones then touch both panels for about 15s (LED will blink red and white three times twice). After that, put them back to the case. Delete connectivity record on cellphone before processing another pairing (All connectivity records relating to the earbuds will all be removed).

! Audio only outputs from single earbud

It's really rare. Please reset GT1 Pro, remove connectivity record on your cellphone and re-connect the earphones to your cellphone.

! Other cases in charging

LED glows solid white for 1 minute when earbuds are topped up. Carry case cannot charge earbuds, if its battery drains. LEDs on carry case will turn off once the case is topped up. If you charge it once again, LEDs will not give any notice, which does not mean the case is not charged.

Daily maintenance

Please do not shower with earbuds. Do not wear them in rainy day. Do not leave them in washing machine or other extreme situations. Clean them with dry cloth after use in pursuing a longer service life.

Tips

1. Before using the headset, please read the manual carefully and keep it for future references.
2. The headset need to be fully charged prior to first-time use.
3. If the headset is left unused for over two weeks, please recharge it periodically.
4. Please use the chargers made by qualified manufacturer.
5. If the headset cannot be found by your phone, please check whether it is in pairing mode; if left unconnected for a long while, the headset will exit pairing mode, please re-enter the mode; if a procedure error of your phone occurs, reboot it; if a procedure error of the headset occurs, reboot or reset it.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
