

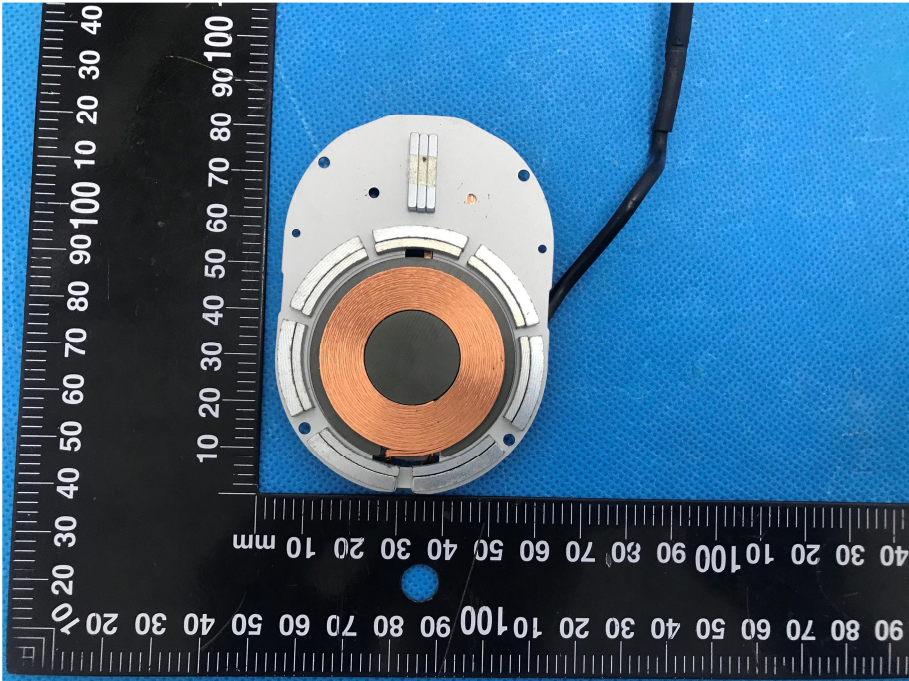

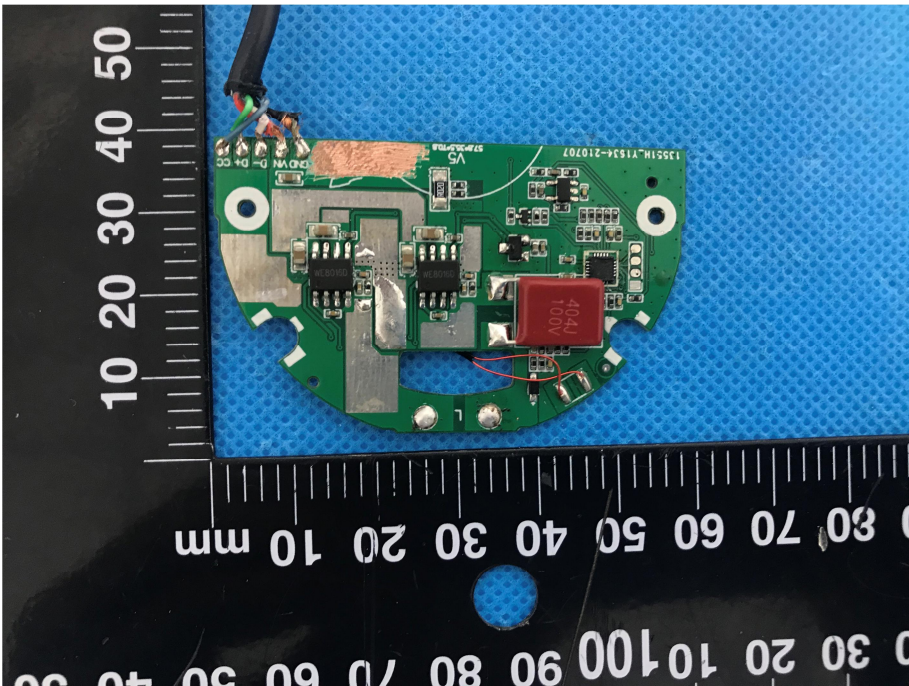

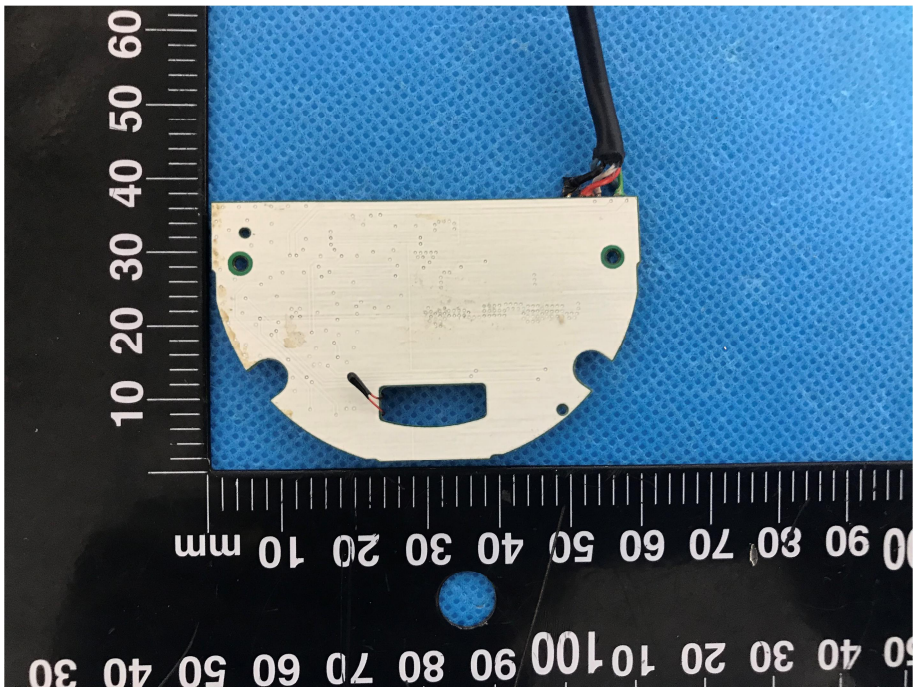

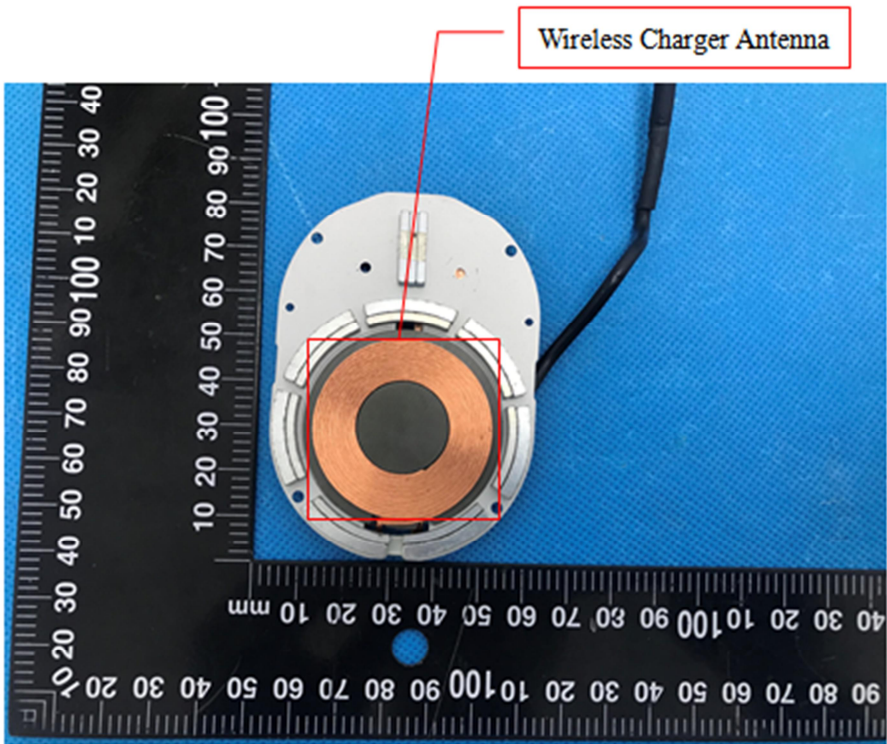

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the disassembled components of an EUT. On the left is the black plastic housing. In the center is a green printed circuit board (PCB) with various electronic components, including a large copper-colored component. On the right is a black circular lid. A black ruler with white markings is placed horizontally below the components for scale. The background is a blue textured surface.
<p>Solder Board-Component View 1</p>	 A close-up photograph of a soldered component on a PCB. The component features a prominent circular copper-colored coil or winding. It is mounted on a silver-colored metal base. A black cable is attached to the component. A black ruler with white markings is placed horizontally below the component for scale. The background is a blue textured surface.

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph showing the back of a green PCB component. A white circular pad is visible, with a copper pad and a black cable attached. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's diameter being approximately 100 mm.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph showing the front of a green PCB component. The board is populated with various electronic components, including a red capacitor labeled '404J 100V'. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's width being approximately 100 mm.

<p>Solder Board-Component View 4</p>	 <p>A photograph showing a white PCB component with a semi-circular shape and a central rectangular cutout. The component is placed on a blue textured surface. A black ruler is visible at the bottom and left, with markings in millimeters. The component has two green circular solder points on its left side and a small black component on its right side.</p>
<p>Antenna View</p>	 <p>A photograph showing the back of a device with a circular antenna assembly. A red box highlights the central copper-colored circular antenna. A red line points from a label "Wireless Charger Antenna" to this box. A black ruler is visible at the bottom and left, with markings in millimeters.</p>
