

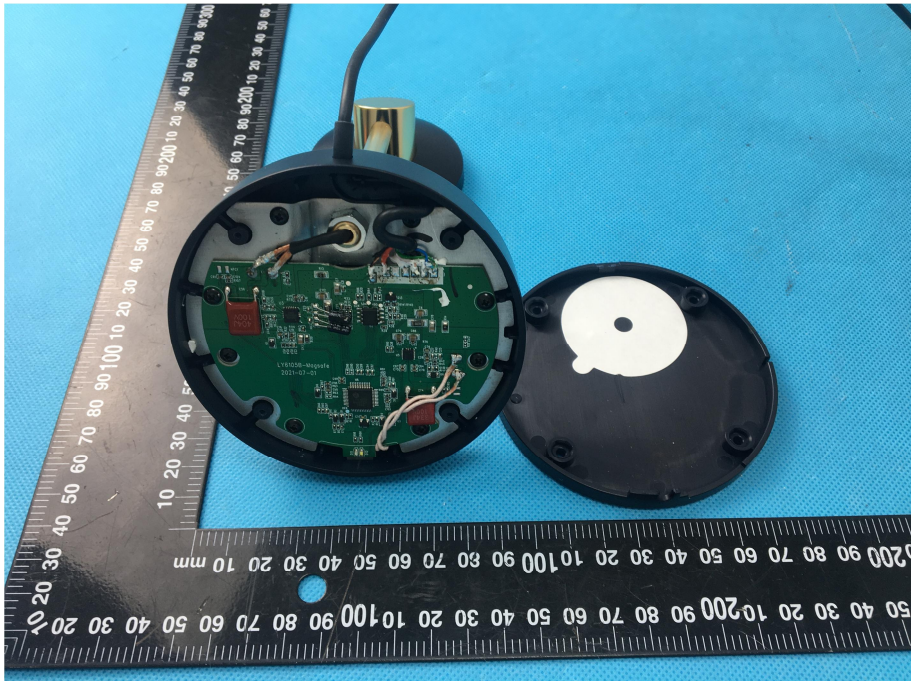

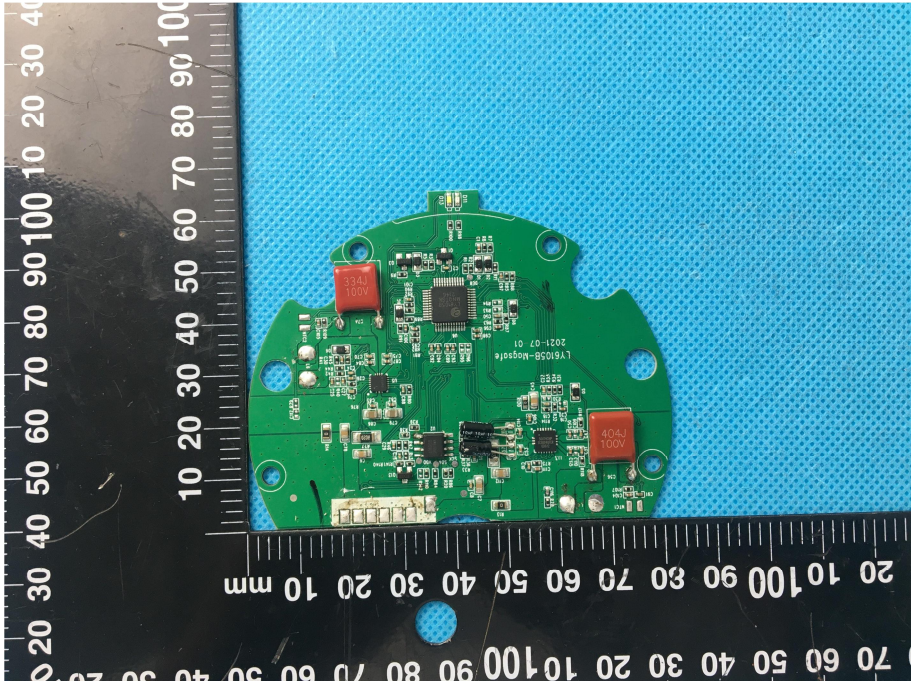

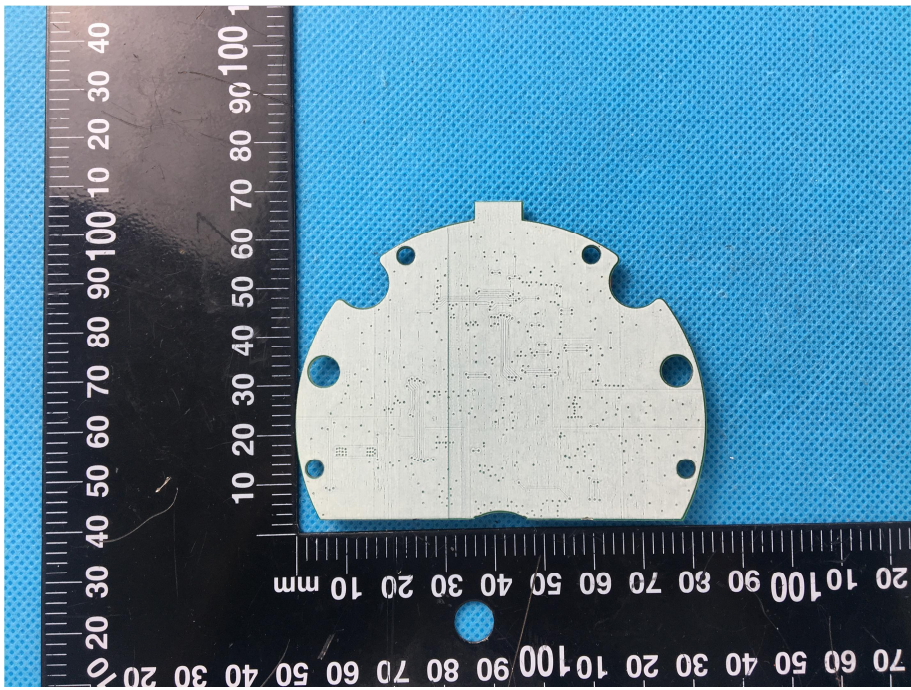

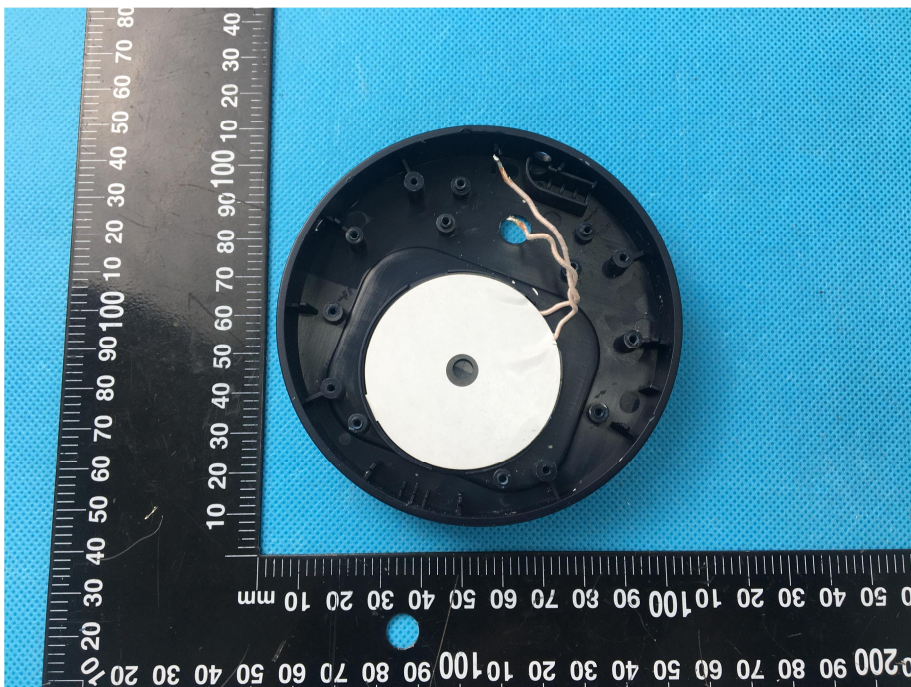

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>This photograph shows the internal components of the EUT. A black plastic housing is open, revealing a green printed circuit board (PCB) mounted inside. The PCB is populated with various electronic components, including a central microcontroller, several capacitors, and other surface-mounted devices. A black cable is connected to the board. A black ruler is placed horizontally below the assembly for scale, showing measurements in millimeters. The background is a blue textured surface.</p>
<p>Solder Board-Component View 1</p>	 <p>This is a close-up photograph of the green PCB, focusing on the solder joints and components. The board is populated with several integrated circuits, including a large black microcontroller and two red capacitors. The solder joints are clearly visible, showing the connection of components to the board. A black ruler is placed vertically to the left of the board for scale, showing measurements in millimeters. The background is a blue textured surface.</p>

<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph of a white, irregularly shaped PCB component with several circular holes and a central rectangular cutout. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's width being approximately 100 mm and its height around 80 mm.
<p style="text-align: center;">Solder Board-Component View 3</p>	 A photograph of a black, circular PCB component with a white circular center and several small holes around the perimeter. A thin, light-colored wire is attached to the component. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's diameter being approximately 100 mm.

Antenna View
