Sanmina IoT Custom Wireless Sensor Instructions For Use

Model: 105421

FCC ID: 2AMS3NIMBUS

FCC Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
  (1) This device may not cause harmful interference, and
  (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by Sanmina for compliance could void the user's authority to operate this equipment.

Please note that if the FCC identification number is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label can use wording such as the following: "Contains FCC ID: 2AMS3NIMBUS". Any similar wording that expresses the same meaning may be used.

Information to the End User

The module is limited to OEM installation ONLY.

The OEM integrator is responsible for ensuring that the end-user has no manual instruction to remove or install module.

The module is limited to installation in fixed/mobile applications; a separate approval is required for all other operating configurations,

Sanmina IoT Custom Wireless Sensor **Instructions For Use**

including portable configurations with respect to Part 2.1093 and different antenna configurations.

Installation:

1. Dig a hole 3 inches in diameter, 6 inches deep
2. Attach the electronics module (upper section) to the bait module (lower section) and screw them together. Once attached, the battery is connected and the unit will begin transmitting to the gateway.
3. Insert the unit in the ground with the top surface of the module flush with the surface of the ground.
