Re: FCC ID: 2AMS3WBOX1

To whom it may concern:

The enclosed documents constitute a formal submittal and application for a Class II Permissive change for a temperature and humidity sensor pursuant to the following rules:

Subpart C of Part 15 of FCC Rules (CFR 47), Intentional Radiators

The antenna and the matching networks are different from the initial filing. There is no change in PCB layout. A new RF Exposure exhibit is not submitted since the new antenna has similar or lower gain.

National Technical Systems – Silicon Valley, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact National Technical Systems – Silicon Valley for assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Deniz Demirci", written in a cursive style.

Deniz Demirci  
Senior EMC/Wireless Engineer
