CONFIGURACIÓN DE CPI

5-Nivel de Configuración de CPI 1200-1600-2400-3200-4000, CPI original es 1200.

MODO DE AHORRAR ENERGÍA

El ratón accederá al modo de sueño automáticamente después de espera de 8 minutos, puede activarlo por pulsar cualquier botón.

使用方法

1. マウスを取り出して、単3型電池を1本配置して、マウスの底部のスイッチをオンにします。
2. マウスの底部電池所にレシーバーを取り出し、パソコンのUSBに差し込みます。
3. システムが自動的にインストールが始まるとマウスは使えるようになります。

5段階 (1200-1600-2400-3200-4000) のCPIが調整することができます。

省エネモード

10分間使わないと自動的に睡眠モードに入ります。いずれのボタンを押すと睡眠モードを止めます。

FCC STATEMENT

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio

communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co located or operating in conjunction with any other antenna or transmitter.
