

Tablet PC Quick Star Guide

Acer One 10 T8-129L

1. PRODUCT SAFETY INFORMATION

FOR YOUR SAFTY

Please read this manual before using the cell smart device (Phone/Tablet) to ensure safe and proper use.

SWITCH OFF IN HOSPITALS

Please abide by relevant provisions or regulations. Please turn off your mobile smart device (Phone/Tablet) near medical equipment.

SWITCH OFF WHEN REFUELING

Don't use the smart device device (Phone/Tablet) at a refueling point. Don't use near fuel or chemicals

SIM AND SD CARDS ARE PORTABLE

Keep your smart device (Phone/Tablet), smart device (Phone/Tablet) parts and accessories out of children's reach.

BATTERY

Please do not destroy or damage the battery, it can be dangerous and cause fire.

Please do not throw battery in fire to avoid hazard.

When battery cannot be used, please dispose it in safe environment.

Do not try to dismantle the battery.

If the battery or the charger is broken or old, please stop using them, and replace with certified genuine battery.

USE QUALITY EQUIPMENT

Use authorized equipment to avoid danger.

1

ROAD SAFETY COMES FIRST

Give full attention while driving. Park before using your smart device (phone/tablet). Please follow traffic rules of local city town.

INTERFERENCE

All wireless devices may be susceptible to cause interference, which could affect performance.

SWITCH OFF IN AIRCRAFT

Wireless devices can cause interference in aircraft. It's not only dangerous but also illegal to use mobile smart device (Phone/Tablet) in an aircraft.

RADIO FREQUENCY EXPOSITION

General statement on radio frequency and RF energy

Your smart device (phone/tablet) contains a transmitter and a receiver. When it is ON, receives and transmits RF energy. When you communicate with your smart device (phone/tablet), the system handling your call controls the power level at which your smart device (phone/tablet) transmits.

Specific absorption rate (SAR)

Your smart device (Phone/Tablet) is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to ensure the protection of all persons, regardless of age and health.

As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

Important safety information regarding radiofrequency radiation (RF) exposure. To ensure compliance with RF exposure guidelines the smart device (phone/tablet) must be used with a minimum of 5 mm separation from the body

As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

Important safety information regarding radiofrequency radiation (RF) exposure. To ensure compliance with RF exposure guidelines the smart device (phone/tablet) must be used with a minimum of 5 mm separation from the body

As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

Important safety information regarding radiofrequency radiation (RF) exposure. To ensure compliance with RF exposure guidelines the smart device (phone/tablet) must be used with a minimum of 5 mm separation from the body

As SAR is measured utilizing the device's highest transmitting power, the actual SAR of this device while operating is typically below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum power required to communicate with the network.

Important safety information regarding radiofrequency radiation (RF) exposure. To ensure compliance with RF exposure guidelines the smart device (phone/tablet) must be used with a minimum of 5 mm separation from the body

2

LIMITING EXPOSURE TO RADIO FREQUENCY (RF) FIELDS

For individuals concerned about limiting their exposure to RF fields, the World Health Organization (WHO) provides the following advice:

Precautionary measures: present scientific information does not indicate the need for any special precautions for the use of mobile smart device (phone/tablet). If individuals are concerned, they might choose to limit their own or their children's RF exposure by limiting the length of calls, or using 'hands-free' devices to keep mobile smart device (phone/tablet) away from the head and body.

REGULATORY INFORMATION

This equipment is in compliance with the essential requirements and other relevant provisions of Directive.

PROTECTION AGAINST THEFT

Your smart device (phone/tablet) is identified by an IMEI (smart device (Phone/Tablet) serial number) shown on the packaging label and in the product's memory. We recommend that you note the number the first time you use your smart device (phone/tablet) by entering *#06# and keep it in a safe place. It may be requested by the police or your operator if your smart device (phone/tablet) is stolen. This number allows your smart device (phone/tablet) to be blocked preventing a third person from using it, even with a different SIM card.

This symbol on your smart device (Phone/Tablet), the battery and the accessories means that these products must be taken to collection points at the end of their life.

Municipal wasted disposal centers with specific bins for these items of equipment.
Collection bins at points od sale.

5. GETTING STARTED

5.1 Home screen

From the Home screen, you can view your device's status and Access application

The Home screen has multiple panels. Scroll left or right to view the panels on the Home screen.

5.2 Access applications

- Scroll down or up to another screen, select an application.

- Press < to return to the previous screen, press > to return to the Home screen.

5.3 Manage applications

- In idle screen, tap Settings > Apps

- Tap Running, you can view all the running apps, tap this app to enter it, you can tap Stop to choose stop running

- Tap Downloaded, you can view all the downloaded apps, tap app to enter it, you can check the detailed information of this app, tap Uninstall to unloading it

6. DEVICE'S STATE AND NOTICE

Iconography (Icons) for notification

When a prompt message appears, click the column box and slide on the screen with your finger to the message notice list. Click options needing to check to see detailed information. Then you may click the message box and slide upwards to close the message window. The following are iconography for icons in status bar:

	Gmail™		Airplane Mode turned on
	Return button		Downloading
	Display recently-used application		Home button
	Current electric volume.		WiFi connected. Internet is available
	Phone		Messaging
	Contact List		Bluetooth function

6

7. TROUBLE SHOOTING

Problem	Solution
The device will turn itself off after a few seconds	Check that the battery is charged.
No sound is heard	Adjust the volume level check if audio file is broken
Screen is hard to see in bright light.	Adjust the screen brightness in the system menu. Avoid using the reader in direct sunlight.
Data on the screen is corrupted or a program is not responding properly	Check if the device is correctly connected to the computer. Check if the memory space is full. Check if the USB cable is broken

8. WARNINGS AND NOTES

Operational Warnings

IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION. Read this information before using your smart device (phone/tablet). For the safe and efficient operation of your smart device (Phone/Tablet), observe these guidelines:

Potentially explosive at atmospheres

Turn off your smart device (phone/tablet) when you are in any areas with a potentially explosive atmosphere, such as fueling areas (gas or petrol stations, below deck on boats), storage facilities for fuel or chemicals, blasting areas and areas near electrical blasting caps, and areas where there are chemicals or particles (Such as metal powders, grains, and dust) in the air.

Interference to medical and personal electronic devices

Most but not all electronic equipment is shielded from RF signals and certain electronic equipment may not be shielded against the RF signals from your smart device (phone/tablet).

Audio safety

This smart device (phone/tablet) is capable of producing loud noises which may damage your hearing.

When using the speaker smart device (phone/tablet) feature, it is recommended that you place your smart device (phone/tablet) at a safe distance from your ear.

This smart device (phone/tablet) is capable of producing loud noises which may damage your hearing.
