

64.843mm x 99mm

BAMBRIGHT
BAMBOO WIRELESS CHARGER

TECH SPECS:
Input: 5V/2A, 9V/2A, 12V/2A
Output: 5W/7.5W/10W/15W(max)
Material: Bamboo, PC plate
Input Cable: USB-C

PRODUCT OVERVIEW:

① Light up wireless charging surface
② USB-C power input
③ Bamboo shell

*Connect USB-C charging cable to USB-C connection point.
Connect other end of cable to a suitable power source.

USING THE BAMBOO WIRELESS CHARGER
Connect the included USB-C charging cable to the USB-C port on the charging pad
Plug the other end of the charging cable into an appropriate power source
Place your wireless charging enabled device over the center of the charging pad with your phone screen facing up
Watch as your device charges up!

TROUBLESHOOTING:

Device not charging
Make sure your device is wireless charging compatible
Make sure the charging pad is connected to a working power source
Make sure that your wireless charging capable device is positioned properly on the top side of the charging pad
Make sure there are no other objects on the charging pad
Remove your device's protective case. This could block a wireless charging signal

Device charging slowly
Your device may charge more slowly with the charging pad than with a charging cable. This is normal behavior
Make sure your device is positioned in the center of the charging pad
If multiple devices are charging at once, the wattage will naturally be lower causing your devices to charge slower

SAFETY INFORMATION
Do not attempt to disassemble the product. It may result in short-circuit or damage
The product should be kept in a dry and ventilated environment. Do not store it in areas with high humidity or temperature
Keep out of reach of children

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help
