## Product Overview

## Selecting ear adapters

Select the most suitable ear adapters for optimum fit of the earbuds

You are provided with three different ear adapters in size L(Large), M(Medium) and S(Small).

## Pairing the earphones with a Bluetooth device

### Connection For the First Time

Taking out one of the earbuds from the charging case and the earphone powers on automatically;  
Click the touch board 5 times

#### Connection with smartphone

1. Take out one earbud out and they go into pairing mode automatically after 3 seconds with red and blue lights blink;
2. Search and connect the device name of 233621 TWS L or 233621 TWS R on your smartphone, then pair with your earphone;

#### Re-connect Automatically

When you take earphones out of the charging case, the earphone would automatically try to connect to the last connected to the last Bluetooth device according to connection history;

Note: First you should activate the smartphone device, then make earphones and smartphones within connection range.

#### Bluetooth Reconnection

After disconnection due to being out of range:

The earphone and smartphone can be reconnected automatically if the disconnection is within 10 minutes;

You need to manually select the TWS on Bluetooth device list again to pair the earphone if the disconnection time is in the range of 10 minutes and 30 minutes;

**You need to repeat the whole pairing process** if the disconnection time is beyond 30 minutes;

#### Double-click Function

Buttons Pressing Mode	How Long

### **Warning:**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
