SPARE PARTS

① Dongle adapter
② USB-A male to Type-C female adapter
③ USB-A male to Type-C male
④ power charging cable
⑤ microphone pole

APPLICATION SCENARIOS

① The device supports ordinary bluetooth mode/game mode
② It is applied to PC, MAC, PLAYSTATION, SWITCH and mobile phone connection
③ It supports BOOM MIC pluggable analog wheat stalk. At the same time, a call analog MIC
④ Dongle is as a gaming headset accessory
⑤ Dongle is a Type-C interface, supporting digital audio input, equipped with a USB-A to Type-C adapter

a. At home:

b. when outside:

SPECIFICATION

① Support music mode, game mode
② Support PC, MAC, Playstation, Switch, mobile phone applications
③ External detachable microphone, can mute control
④ when the external microphone is not located, you can talk through the built-in microphone of the headset. Mute control
⑤ Support game mode/music mode switch

SPECIFICATIONS

Name:	DUAL-MODE WIRELESS BLUETOOTH GAMING HEADSET
Model:	HAWK
Sound generating unit:	Drive size: 40mm, Magnet type: NdFeb
Audio decoding:	SBC, AAC
Frequency response range:	20-20000HZ
Charging port:	Type C: 5V2A
Battery charging (headset):	charging 180 minutes.
Battery life:	50 hours
Supported communication protocol:	BT5.3
Product frequency band:	2400MHz~2483.5MHz
Maximum RF output power:	10d8m

ATTACHMENT DONGLE SPEC

① Dongle does not need buttons. Plug in Dongle and enter game pairing search.
Note: The headset will enter game mode only when the headset is connected to Dongle. If the headset is not in Dongle state, it is in bluetooth mode.
② Dongle has an indicator light.
Note: a. Fast flash is pairing search
b. Slow flash is successful connection
③ After inserting Dongle，the Dongle enters the game pairing search, and the search time is unlimited.
④ In Dongle game mode, it can support uplink voice.
⑤ In Dongle game mode, it can answer incoming calls, automatically return to game mode after the call ends.
⑥ Dongle does not need to support normal Bluetooth mode to play music, only the game low latency mode.
⑦ a. Support simultaneous connection to Dongle and a mobile phone.
b. At present, Dongle connection is the main setting. If Dongle plays audio, the audio on the mobile phone cannot be played on the headset. However, if the Dongle is not playing, the headset will play the audio of the mobile phone (you need to turn off or pause the PC player (Dongle) to play the music on the mobile phone)
c. Although the connection is dominated by Dongle, if a call comes from a mobile phone, it will be forced to switch to the mobile phone. After the call is finished, audio playback on Dongle will resume
d. After the headset is turned on, the Dongle will be automatically connected back. The connection between the headset and the mobile phone must be connected

back through the mobile phone.
e. Some mobile phones can only power on dongle when the OTG mode is turned on.

INFORMATIONAL NOTE FOR CUSTOMERS IN U.S.A. ONLY NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference
(2) this device must accept any interference received, including interference that may cause undesired operation.

INFORMATIONAL NOTE FOR CUSTOMERS IN CAN. ONLY:

- English:"
This device complies with Industry Canada licence-exempt RSS standard(s).
Operation is subject to the following two conditions:
(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device."

- French:"
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) l'appareil nedoit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectriquesubi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. L'appareil peut être utilisé sans restriction dans des conditions d'exposition portables.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

CAUTION

- replacement of a battery with an incorrect type that can defeat a safeguard (for example, in the case of some lithium battery types);
- disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
- leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;
- a battery subjected to extremely low air pressure that may result in an explosion or the
