## Specification

Dimensions	134*138mm
Weight( including adapter)	485g
Input	AC 100-240V 50/60Hz
Output	DC 24V 1A
Length of Power Cord	180cm
Electric Consumption ( music + mist + light)	13.5 W
Time Mode	On/1H/3H/6H
Water Tank Capacity	200ml
Materials	ABS+PP

- Oil mist might damage painted surfaces, so wipe up any residue quickly and be careful not to drip onto the surface of the container.
- . Do not exceed the MAX line when filling water, no more than 200ml. Do not open the upper lid during operation. Please turn off the diffuser first, otherwise the water and oil will splash and oil will stick to the outside of the tank which may make the upper lid harder to open in future use.
- Due to anti-dry protection, the diffuser will shut down automatically when the water is lower than a certain level.
- There are many factors that may affect the mist including water type, humidity, capacity, temperature and air currents.
- . It's normal that the amount and intensity of the mist change during operation
- Please only use 100% essential oil with this diffuser. Low quality oil that contains chemicals, spices, or impurities may cause malfunction.

Aroma Diffuse

Maintenance Please clean the product as following after using 5-6 times (or 2-3 days):

- Turn off the power, unplug the power cord, and remove the upper lid.
- . Pour out all the remaining water in the tank from the DRAIN SIDE.
- If the unit happens to be knocked over or tipped during operation, please shake the unit to drain the water inside the mechanism and put it in a well-ventilated place for natural drying.

This equipment has been tested and found to comply with the limits for a Ins equipment has been tessed and round to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential intellation. This equipment generates uses and can naciate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off

- television recognor, winch can be determined by turning the equipment of and on, the user is encouraged to try to correct the interference by one or more of the following measures:

   Reorient or relocate the receiving antenna.

   Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to
