FR How To Safely And Best Use Your Charging Pad with MagSafe®

- Ensure there are no metallic objects between the material top and your phone as this may interfere with MagSafe compatible charging. Use Insulation Tape to prevent the device from activating, the device has the potential to get very hot and burn the user or damage its surroundings.
- If you're using an accessory with your phone case, for example a Mount "Card" Wallet, please remove it as it may affect the charge performance.
- The magnetic array design ensures that you'll receive a well optimized charge every time. Ensure magnets snap to position otherwise your mobile device may charge ineffectively.
- For best charging performance, we recommend you use a 20W power delivery wall adapter.
- For best results, use with a MagSafe compatible phone or phone case.
- If you are not using a MagSafe phone, you won't be able to achieve proper alignment.
- You will need to ensure your phone is as central as possible to get the most efficient charge.

Important Safety Instructions - Warning

Read all printed instructions and warnings provided with this product. Improper use of this product may result in product damage, excess heat, toxic fumes, fire or explosion, or other damages you ("Purchaser"), and your Manufacturer will not be responsible for damages you or their property may suffer as a result of misuse of this product as outlined above. Purchaser agrees to defend, indemnify, and hold Manufacturer harmless for any claims or damages arising from unintended use or misuse, including use with an unapproved device. Moai® and AutoMagSafe® are trademarks of Moai Products Ltd. Apple®, AirPods® and iPhone® are trademarks of Apple® Inc. The trademark "iPhone" is used in Japan with a license from Apple® Inc. All rights reserved.

Make for Apple®

Use of the Made for Apple® badge means that an accessory has been designed to connect specifically to the Apple product(s) identified in the badge and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation of the device.

IC® Exposure Statement

This device complies with IC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 10cm between the radiator and your body.

CE Warning

This device was tested for fixed location. To comply with RF exposure requirements, a minimum separation distance of 20cm must be maintained between the user's body and the wireless charger, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

WEEE Declaration

All of our products are marked with the WEEE symbol; this indicates that this product must NOT be disposed of with other waste. Instead it is the user's responsibility to dispose of their waste electrical and electronic equipment by handing it over to an approved re-processor, or by returning it to Moai® for reprocessing. For more information about where you can send your waste equipment for recycling, please visit [www.moai.co.uk](#).

Warranty

At Moai®, we are dedicated to making high quality products that last. To give you peace of mind, this product is warranted for 2 years from the date of delivery. For full details regarding warranty terms and exclusions, please visit [www.moai.co.uk/warranty](#). This warranty does not affect any statutory rights that you may be entitled to. Keep a copy of your purchase receipt as proof of purchase.
