FCC

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

RCU Specification

- RF Specification
 - Wireless technique : Bluetooth Energy
 - Working range : >8 meters (line of sight)

Electrical Specification

■ Rating

- Operating voltage range : DC 2.2V to 3.6V
- Operating temperature/humidity range : -10°C to +40°C, 20% to 80% RH
*Without dew condensation
- Storage temperature/humidity range : -20°C to +60°C, 20% to 95% RH *except Batteries
- Power Source Used (3.0V DC) : IR Remote with BT-Voice → LR03 battery x 2p
- Mass : about 92g (excluding the battery × 2)

■ Electrical Performance

- IR-LED Operation range
 - On shaft : Higher than 7m
 - Specified angle : Higher than 7m
