**Product Description**  
This product is a type of smart home wireless charger and colorful lamp, with high-performance integrated circuit chip, integrating the full-bridge type of converter to optimize coil drive, then achieving wireless charging function. It can charge digital watches and phones which meet Qi wireless charging standard. Use it conveniently at anywhere and anytime. Please read below carefully before use it.

**Product Features**

- Wireless charger, double LED indicator light
- White light lamp
- Atmosphere lamp

**Operating Instruction**  
Take out the product from the package, plug the DC head of the power adaptor (INPUT: AC100-240V, OUTPUT: 12V/1A) to the DC12V input part of the product, then plug the power to the AC socket. At this time, the red and blue indicator light is on and flashes two seconds then goes out, the charger already entered into normal working status.

**Wireless charger operating instruction**  
When charge to mobile phone, place the phone which meets wireless charging standard (Qi standard wireless charging device) to the middle silicone area of charger device horizontally, at this time, the red indicator light on the charger is on and has a DI indicating voice, the phone displays charging status as well. If not, please check the wireless charging induction of the mobile phone. If on the charger wireless induction exactly, or place the phone to the wireless charging induction area again. If still does not work, please check your phone if meets wireless charging standard (Qi standard wireless charging device).

- Gray part is wireless charging induction area

- Place phone to the middle silicone area, Mobile phone on the induction area is the best charging status

The red indicator light at the top of the charger is on and has a DI voice, at this time, the mobile phone displays charging status as well.

After full charged, the green indicator light is on, at this time, the battery mark in the mobile phone displays full charging status as well.

It's normal situation if the charger is a little fever during charging.

**White LED light and atmosphere lamp operating instruction**

1. Press (touch) the power switch "⏻" on top of the charger shortly to turn on or off white night lamp, adjusting lightness by the color strip on the top, approaching "+" is going to brighter, approaching "-" is going to darker.

2. Press (touch) the power switch "⏻" on top of the charger for two seconds more to turn on or off atmosphere lamp, and then touch the color strip: from "+" to "-" or from "-" to "+" to switch to different colors according to one's favor (main colors: green, red, blue, yellow, purple, orange).

**Specifications**

|                         |           |
|-------------------------|-----------|
| Input                   | DC12V/1A  |
| Wireless charger output | 5V, 0.95A |
| White lamp power        | 5W        |
| Atmosphere lamp power   | 1.8W      |
| Product weight          | 505g      |
| Product size            | 207*65MM  |

**Warranty Card**

- One year warranty with free repair from purchasing date if damaged in normal use. If the product exceeds the guarantee period or out of free repair range, we will charge the parts cost.
- If need service for replacing parts, we will charge according to the parts price list of our company.
- Below situations are out of maintenance even in the guarantee period.
  1. Product damaged by natural disaster, rat disaster, or not in normal using.
  2. Damaged or Broken by transportation, moving drop, incorrect preservation after bought it.
  3. In the warranty card, incompletely record, without purchasing date, without stamp from the shop.
  4. In special circumstances, such as humidity, sulfur area, high salinity near sea and other corrosive area, which are out of the guarantee range.
  5. Use it without following user manual.
  6. Sell it in special agreement.
- Should pack the repaired product well in case to damage again during shipping to factory.
- Product damaged from dismounting by yourself which is out of our guarantee range.

**Importance!**  
Thanks for buying this product. In order to secure your rights and interests, please write it carefully, Thank you!

**FCC STATEMENT :**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 (1) This device may not cause harmful interference, and  
 (2) This device must accept any interference received, including interference that may cause undesired operation.  
**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
 ? Reorient or relocate the receiving antenna.  
 ? Increase the separation between the equipment and receiver.  
 ? Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
 ? Consult the dealer or an experienced radio/TV technician for help.

**RF warning statement:**  
 The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
