## REQUEST FOR CONFIDENTIALITY – ISED CANADA

**IC: 23063-E8**

Pursuant to RSP-100 Paragraph 12.4, we hereby request permanent confidential treatment of exhibits identified as such in the table below and request they are permanently withheld from public review based on the documents containing trade secrets and proprietary information not customarily released to the public. The public disclosure of this information might be harmful to the applicant and provide unjustified benefits to its competitors.

We also request short-term confidentiality (STC) on certain exhibits until the intended date of marketing as outlined below. We request the exhibits be withheld from public view until April 16, 2023.

*\* ISED may consider treating the exhibit as confidential if the applicant/lab submits a request with appropriate justification before the application for certification service is submitted to the TCB*

**Note 1:** any documents held under the Short-Term confidentiality will automatically become public after the requested time. Any exhibits (i.e., schematic diagrams) that may have already been requested to have "Permanent" confidentiality as shown above need not be repeated under Short-Term confidentiality request.

**Note 2:** exhibits marked for STC with a period exceeding 180 days will be flagged and CBs/Applicants may have to provide adequate justification if that was not already included in the certification application. Short-term confidentiality is strictly to allow manufacturers to delay public access of exhibits, which would otherwise automatically be treated as non-confidential, until a planned event (e.g., marketing event / product launch) takes place.
