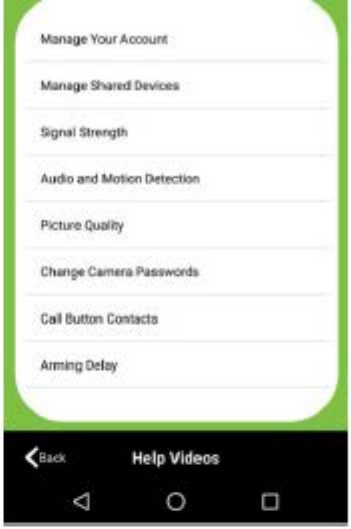
Sec. 15.19 on Package

Guardzilla 360 camera can be programmed to send an instant push notification to three individual smart phones (e.g. mom, dad, emergency contact). To program a call button first select **Other Settings** in the **Settings** area of the app, then select **Call Button Contacts**. Enter the email address of the desired contact person, then press **Save**. This email will be associated with the first call button on the camera. Repeat the process to program the second and third buttons.



15.19 statement in Application, view instruction given in the last page of quick start guide

FCC Compliance Statement available in the phone app at:
Settings > Other Settings > Legal and Compliance
