

# Vanity Mirror with Built-In Wireless Charger

Please read this manual before use.

Cosmetic mirror wireless charger E-QI-18343-A allows you to charge a compatible smartphone without plugging it to USB port or wall charger.

Just place your device on center of wireless charging top part and it starts to charge. Please note that Wireless Charging works only with smartphones or other electronic portable devices that are capable of wireless charging.

## **SPECIFICATIONS:**

Material: ABS + Metal +Glass

Wireless transmission power: 5W

Input Power: DC 5V/2A

Output: DC 5V/1A

Built-in rechargeable battery: 650mAh (Polymer) only for LED light

Best Transmission distance: 2-6mm

Charging Efficiency:  $\leq 63\%$

Product Size: 160\*327mm

Support FOD(Foreign Object Detection) function

Charging Port Type: DC Port

Over-current, overvoltage protection

Non-QI Certified

## **LED LIGHT INDICATOR**

RED - No-load standby state, Full Charged

GREEN – Charging

## **EASY CHARGING**

The set up for Cosmetic Mirror Wireless Charging is quick and simple.

1. Cosmetic Mirror Wireless Charging can charge Qi enabled smartphones.
2. You can charge your smartphone with a protective case on it. (Works with most cases up to 4mm thick.)
3. If your protective case has metallic studs, magnetic clasps, or a magnetic plate, you should remove the case before placing your phone on the mount.
4. Also ensure the protective case does not create distance between the charging pad and the back of the phone that is greater than 4mm.
5. Connect the LED cosmetic mirror to power using the included DC USB charging cable.
6. Place your Qi enabled mobile phone in the center of the charging pad.
7. Please use a 5V/2A adaptor and high quality cable to ensure optimal charging effect.
8. Place your device on the center of charging pad. Make sure your phone is positioned properly on the charging pad, in order to receive best charging. Also remove protective case for a more efficient charging.

## **LED Light**

The LED Cosmetic Mirror has 3 brightness levels.

Press the power button to turn on / off and switch between brightness levels.

## **WARNING**

- Use Wireless Charging Pad only as directed, to avoid the risk of fire or explosion
- Do not place any other items on the pad. Only compatible smartphones are allowed.
- Keep the Wireless Charging Pad dry at all times
- Do not expose it to fire, water, and hot/ cold temperatures
- Do not disassemble, crush, puncture or modify in any way
- Do not keep or store in dirty places
- Do not use cleaning solvents or other harsh chemicals to clean the wireless pad
- Do not drop, shake, or step on the Wireless Pad.

## FCC Statement

This device complies with part 15 and part 18 of the FCC Rules. Operation is Subject To the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 and part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and candidate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.

This device complies with Part 18 of the FCC Rules. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Increase the separation between the equipment and any other radio device.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

## ISED Statement

This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

- This device may not cause interference; and
- This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes:

- l'appareil ne doit pas produire de brouillage;
- l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

During the operation of device a distance of 10 cm surrounding the device and 10 cm above the top surface of the device must be respected.

Cet équipement est conforme Canada limites d'exposition aux radiations dans un environnement non contrôlé.

au cours de l'opération de l'appareil sur une distance de 10 cm autour de l'appareil et de 10 cm au - dessus de la surface supérieure de l'appareil doit être respecté.
