Date (05/12/2020)

Federal Communications Commission

Equipment Authorization Branch

7435 Oakland Mills Road

Columbia, MD 21046

**Modular Approval Request**

**FCC ID:** 2ANDL-BT2S

**The following attestation addresses the requirements to support modular approval:**

| Modular approval requirement                                                                                                                                                                   | Yes (provide brief statement)                                                                                         | No * |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|------|
| (a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly | The module has a metal shield. Refer to the external photo of EUT.                                                    |      |
| (b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal                                         | Data to the modulation circuit is buffered as described in the operational description provided with the application. |      |
| (c) The module must contain power supply regulation on the module                                                                                                                              | The module contains its own power supply regulation. Please refer to schematic filed with this application.           |      |
| (d) The module must contain a permanently attached antenna, or                                                                                                                                 | The module has a PCB antenna and which permanently attached                                                           |      |

|                                                                                                                                                                          |                                                                                                   |  |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|--|
| contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)           | the module. Refer to the photo of EUT.                                                            |  |
| (e) The module must demonstrate compliance in a stand-alone configuration                                                                                                | The module was tested stand-alone as shown in test setup photographs filed with this application. |  |
| (f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)        | The FCC ID is printed on the label of the module. Refer to the label of EUT.                      |  |
| (g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements | The module comply with all specific rules.Refer to the datasheet.                                 |  |

| <b>Modular approval requirement</b>                      | <b>Yes (provide brief statement)</b>                                                                                              | <b>No *</b> |
|----------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|-------------|
| (h) The module must comply with RF exposure requirements | The module meets fixed intentional radiator exclusion levels as shown in the RF exposure information filed with this application. |             |

\* Please provide a detailed explanation if the answer is "No."

Yours sincerely,

*Xiaodong Shou*
