RCA

MODEL NO.: RPJ129

Smart Android Wi-Fi Home Theater Projector

INSTRUCTION MANUAL

PLEASE READ BEFORE OPERATING THIS EQUIPMENT

Important Safety Instructions

1. Read these Instructions.

2. Keep these Instructions.

3. Heed all Warnings.

4. Follow all instructions.

5. Do not use this apparatus near water.

6. Clean only with a dry cloth.

7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifier) that product heat.

9. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

10. Only use attachments/accessories specified by the manufacturer.

11. Unplug this apparatus during lightning storms or when unused for long periods of time.

12. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

13. Use only with a cart, stand, tripod, bracket, or table specified by the manufacturer or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

Additional Warnings and Precautions

1. Do not look directly into the projector light.

2. **Don't touch the projector lens**

3. Mains adapter is used as disconnect device and it should remain readily operable during intended use. In order to disconnect the apparatus from the mains completely, the mains plug should be disconnected from the mains socket outlet completely.

4. **CAUTION:** Use of controls or adjustments or performance of procedures other than those specified may result in hazardous radiation exposure.

5. **WARNING:** Changes or modified to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

6. **WARNING:** Use of this unit near fluorescent lighting may cause interference regarding use of the remote. If the unit is displaying erratic behavior move away from any fluorescent lighting, as it may be the cause.

7. **WARNING:** Shock hazard - Do Not Open.

8. Caution and marking information is located at the rear or bottom of the apparatus.

9. **WARNING:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain, moisture, dripping, or splashing.

10. Objects filled with liquids, such as vases, shall not be placed on the apparatus.

FCC Warning

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

· Reorient or relocate the receiving antenna.

· Increase the separation between the equipment and receiver.

· Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

· Consult the dealer or an experienced radio/TV technician for help.

The distance between user and products should be no less than 20cm

LENS COVER

Placement of Your Projector

Your projector can be installed in four different configurations (see picture below):
Front Table

Front Table:
Select this location with the projector placed near the floor in front of the screen. This is the most common way to position the projector for quick setup and portability.
Rear Table

Rear Table:
Select this location with the projector placed near the floor behind the screen.
**NOTE:** A special rear projection screen is required.

Front Ceiling

Front Ceiling:
Select this location with the projector suspended upside-down from the ceiling in front of the screen.
NOTE: A projector mount is required to install the projector in a ceiling.

Rear Ceiling

Rear Ceiling:
Select this location with the projector suspended upside-down from the ceiling behind the screen.
NOTE: A projector mount is required to install the projector in a ceiling.
A special rear projection screen is required.

To reduce Image Distortion

• Move the projector as close to the center of the screen as possible.
• The light beam from the projector should be perpendicular to the screen for a rectangular or square image.
Distance Between The Projector and Screen

Measure the distance between the projector and where you want to position the screen. This is the projection distance.
Distance	Screen Size
2.0m	60 inch
2.38m	72 inch
2.74m	84 inch
2.82m	86 inch
3.27m	100 inch
3.87m	120 inch
4.7m	140 inch
5.65m	160 inch

Installing Your Projector In the Ceiling

When installing the projector in the ceiling, please purchase a projector mount recommended by an installation professional and follow the instructions that come with the mount.

Before installing the projector in the ceiling, please check to make sure the ceiling structure can support the weight of the projector and the mount. If in doubt, please ask the advice from an installation professorial.

NOTE: Projector mount and screw(s) not included
Adjust The Vertical Position

Adjust the projector's vertical position by following the illustrations below:
Press the "PUSH" button (Button 3 page 9) to extend the front leg and adjust the vertical height of the projector.
Adjust The Focus And Keystone

Follow below picture to adjust the focus and trapezoidal screen.

Adjust the focus by turning the lens while observing the image pixels near the center of the screen. Optimal focus is obtained when the pixels are clearly visible. Depending on the projected screen size, the focus near the screen edges may be less sharp than the screen center.

Keystone image is created when the projector lens is projected from above or below the center of the screen. Keystone correction restores the distorted image to a rectangular or square shape.

Install / Remove Batteries of Remote

Remove the battery compartment cover on the back of the remote by carefully sliding to open. The battery cover can then be lifted away. Fit the correct batteries (not included), referring to the polarity markings. Finally, replace the cover.

NOTES:
- Batteries shall not be exposed to excessive heat such as placing under the sunlight or near a fire.
- Please make sure the batteries are installed with their correct polarities.
- Do not mix old and new batteries.
- Use only the same type of batteries.
- Do not dispose of the batteries in fire, battery may explode or leak.
- Do not recharge a non-rechargeable battery.

Projector Home Screen

1. Press the ⏻ button to turn on unit.
2. Press the ⊟ / **SOURCE** button and use the ▲／▼ button to select **Streaming Apps**.
3. Press the (OK) button to enter Projector Home Screen like the figure.
4. Use (⬤)／(⊚) button to select application icon and press (OK) button for operation.
Note: The projector is loaded with the most updated system files and apps. From time to time, Android system may require update patch in order to run. If you choose to update, a Google account is required. If you do not want to update, please press the "Return" button on the remote.

Connect to Wi-Fi

Initial Wi-Fi Connection

In Projector Home Screen, use (⬤)／(⊚) button to select **Wi-Fi Network** icon and press

(OK) button to enter menu.

The unit will search and show all available networks on the screen.

(if no available networks show out, Press (OK) button to turn on the Wi-Fi.)

1. Use ▲／▼ button to select Network and press (OK) button to enter.

2. Enter password for your selected network

Use (⬤)／(⊚) button to select character, numbers, symbols and so on,

Press (⊘) button to confirm in the virtual keyboard.

3. Press (🔙) button to exit virtual keyboard enter state

4. Use ◀／▶ button to select **"CONNECT"** to connect Wi-Fi network.

NOTE: For easy operation or key in the password, you can connect an Android keyboard (not included) or a mouse (not included) in the USB ports in the rear of the unit.

The Menu Settings

In Projector Home Screen, use ⬭/◉ button to select

Settings icon and press (OK) button to enter **Settings** menu.

Settings Device ▼ **Network** 🍥 **Apps** ▤ **Storage & reset** Preferences 🕐 **Date & time** 🌐 **Language** Presonas 🔒 **Security & restrictions** Account ➕ **Add accout**	This **Settings** menu showed on right upper of view screen. In **Settings** menu, the following items provide you to setup for your favorite. ● Network – for setup wireless network ● Apps – will list out the Apps which is installed. ● Storage & rest – show internal shared storage status and Factory data reset. ● Date & time – with the following menu for setup. ➢ Set time zone – Use ▲／▼ button to set the time zone, press (OK) button to confirm. ➢ Use 24 hour format – Press (OK) button to set On or Off ● Languages – Use ▲／▼ button to set the language, press (OK) button to confirm. ● Security & restrictions – with the following menu for setup ➢ Unknown sources – Press (OK) button to set On or Off ➢ Verify apps - Press (OK) button to set On or Off ● Add account – Let you add account for the Apps like Facebook, Google, Skype, Twitter, etc.

Install and Uninstall Apps

Before starting, please make sure the projector is connected to a Wi-Fi network.

- Install Apps
    1. In Projector Home Screen, start the app store by selecting one of the following app stores and search for the app you want to install:
    -Aptoide TV
    -APKMirror
    -APKPure
    -Streaming App Store
    2. Download an APK file of the app, save it to the projector's internal storage, and then install the app by selecting APPInstaller icon in Projector Home Screen.
    You may also download an APK file of the app on a computer, save the file to a USB drive, plug the USB drive into the projector's USB port and use APPInstaller to select the file on the USB drive to install the app.
    3. After starting app installation, follow the on screen message to complete the installation. You may need to change the setting in Security > "Unknown" when prompted.
- Delete installed Apps
  In Projector Home Screen, use ⊕/⊙ button to select Settings icon and press (OK) button to enter Settings menu.
    1. Use ▲/▼ button to select Apps and press (OK) button to enter.
    2. All application Apps will show which is installed on the unit.
    3. You can choose which programs to be disable or uninstall.

Video Streaming (playing online TV and movies)

To play any online video, please install a video streaming app such as Youtube or Crackle by starting the app store e.g. Aptoide TV, and enter the name of the app in "Search" section. Please note that not all apps listed in the app store operate in the projector after installation.

> Important Note:
> If there is no sound from the internal speakers when playing streaming media contents from APP like Youtube, Netflix, Vudu etc. Please check the audio settings and make sure it is set to "PCM Stereo" mode.

Browser Function

1. In Projector Home screen, select relative Browser icon (e.g. **Chrome**) to enter browser website.
2. Key in the website address or something what you want to search.
Use ⊕/⊙ button or 🔲 button to move the cursor in the virtual keyboard to select character, numbers, symbols and so on, press ⊖ button to confirm in the virtual keyboard.

NOTES:

- You can switch the numeric input keyboard, move the cursor to ?123 Virtual key and press the (OK) button, you can switch the digital and symbol enter state.
- For easy operation, you can connect an Android keyboard (not included) or mouse (not included) in USB port in the rear of the unit.
- Before use this function, the Wireless network (Wi-Fi) is need connected.

Multi-screen Interactive Connection for Phone and Projector

● **Miracast**

First, ensure the projector and the mobile is connected to the same wireless network.

Select Miracast icon in Projector Home Screen and tap the mobile's settings, find the screen sharing or wireless display (different mobile models with different names).

You can find the name of the projector **Android_xxxx** in the mobile screen sharing, click the link, then click the projector to accept this connection.

The mobile device will be transferred to full-screen projector (this feature is only supported by Android system 4.2 or above. IOS devices do not support Miracast).

Note: Please note that depending on the mobile device, Miracast may not operate as indicated due to copyright restrictions.
