

Operation Description

Test Model: US-SSD01

The EUT is a Smart Dimmer Switch with Wifi function

The device designated with the following general information and technical

Power supply

US-SSD01 is powered by AC 100-240V,50/60Hz From External Circuit

MCU:

US-SSD01 use chip TM52FE8276 as ingrate 2.4GWIFI Wireless technology,
more technical information as follows:

A 26MHz crystal oscillator Supports a clock signal to TM52FE8276

The Basic Technical Specification:

Frequency band	2412.0 - 2462.0 MHz
Integrated Chipset	TM52FE8276
Channels	11CH
Modulation	DSSS,OFDM
Antenna	0 dBi
Antenna Type	PCB Antenna
