Part 2: Connect The Smart Bulb to Wi-Fi

Step 1: Download the App

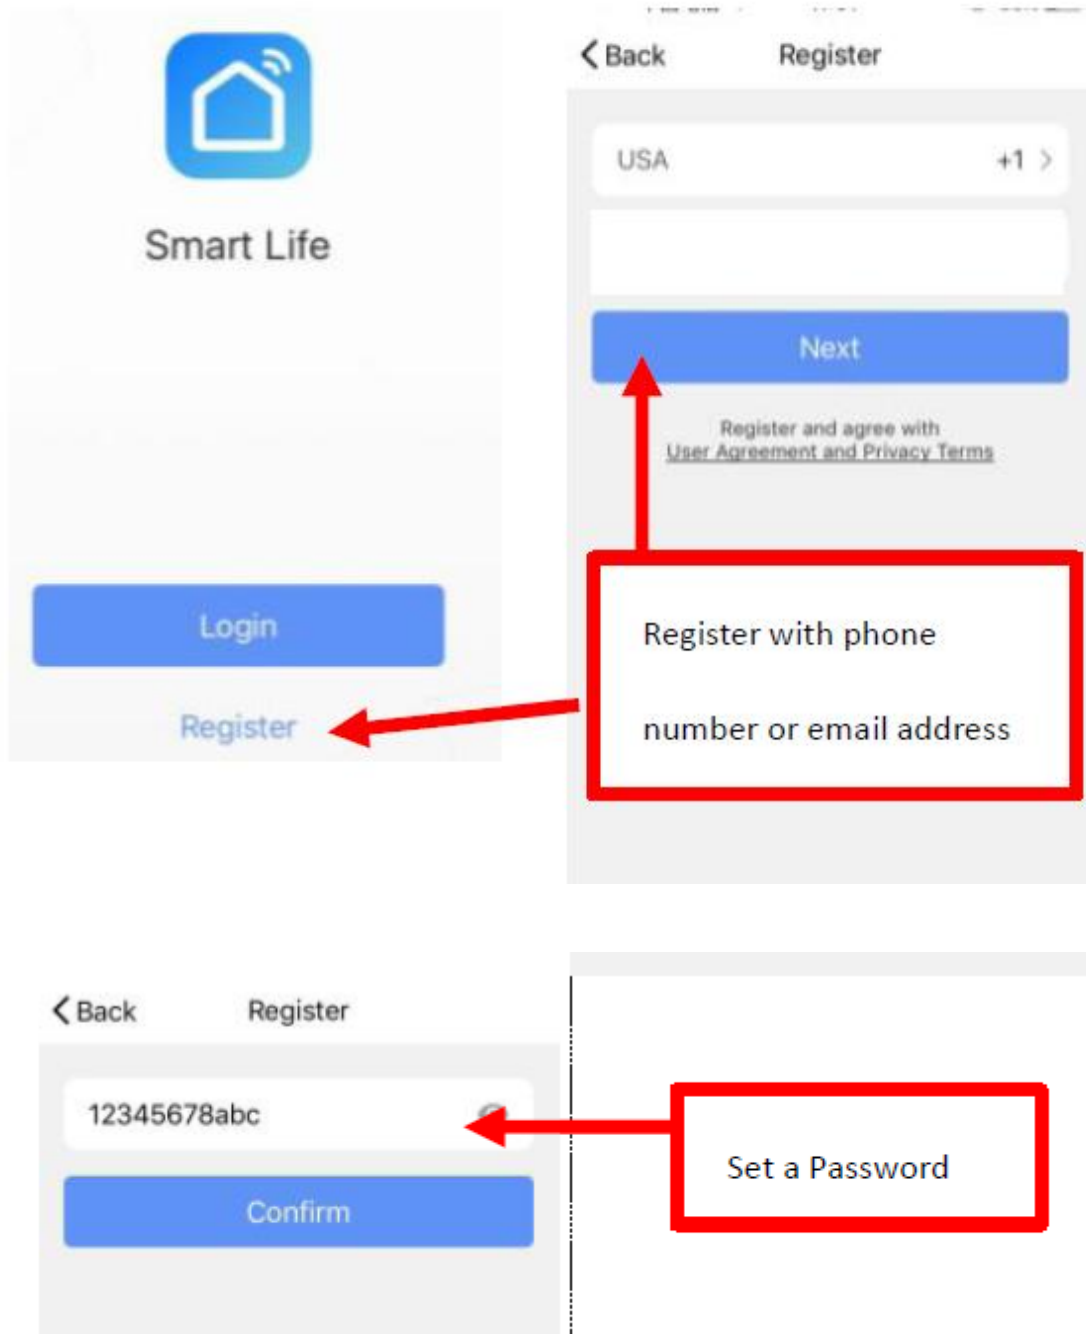

Scan the QR code or search "Smart life" in the App Store or Google Play

Smart Life
Formal version

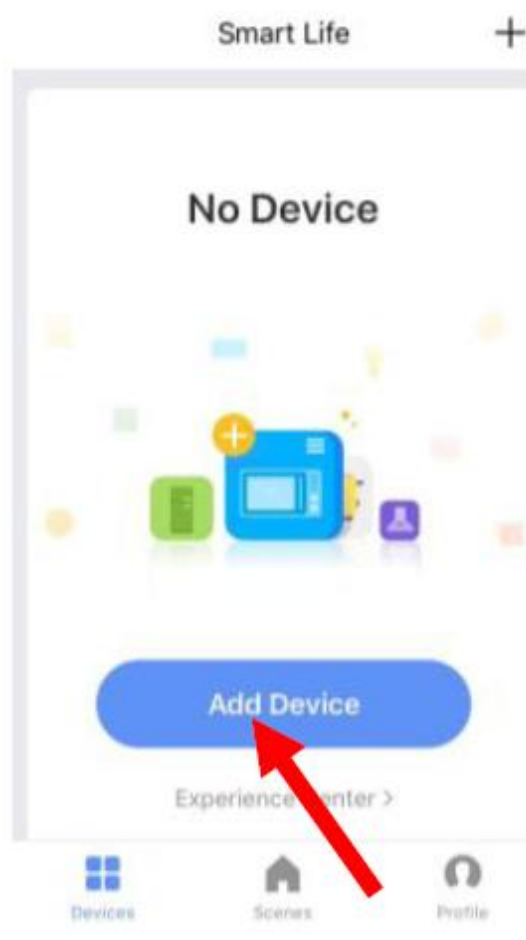

Download

Step 2: Register a New Account

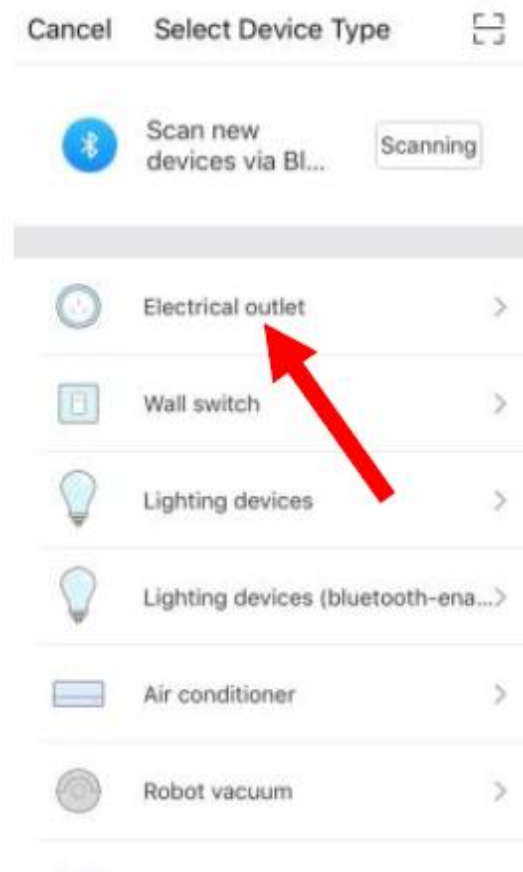

Step 3: Install the Smart Plug and the indicator light flashes quickly. If not, press the power button and hold it for 5s, the light will blink again.

Step 4: Press + to Add a device in your App (Smartphone should connect to 2.4GHz Wi-Fi).

Step 5: Select "Electrical Outlet"

Step 6:
Confirm the indicator

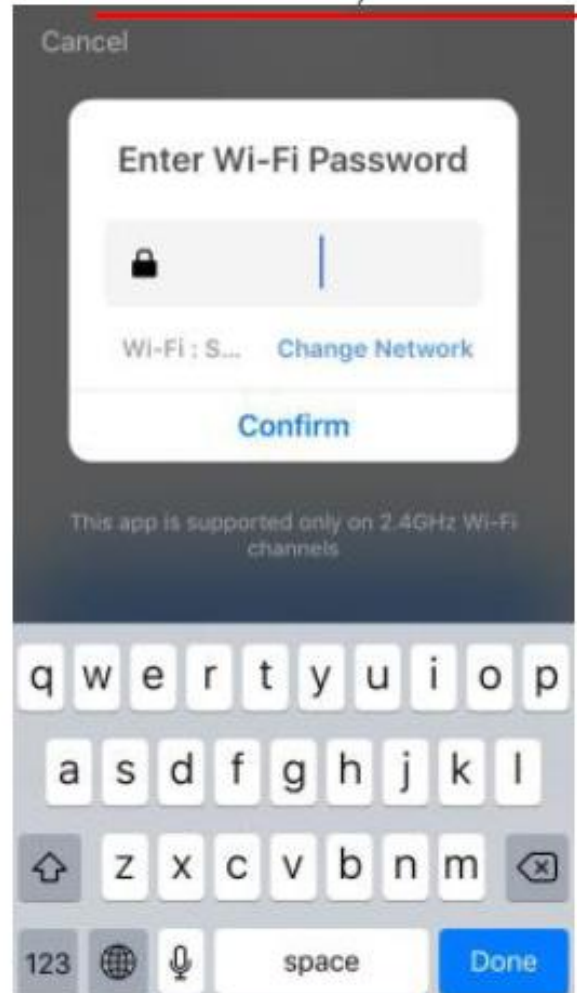

Power on the light and confirm that light rapidly blinks

[How to make light rapidly blink](#)

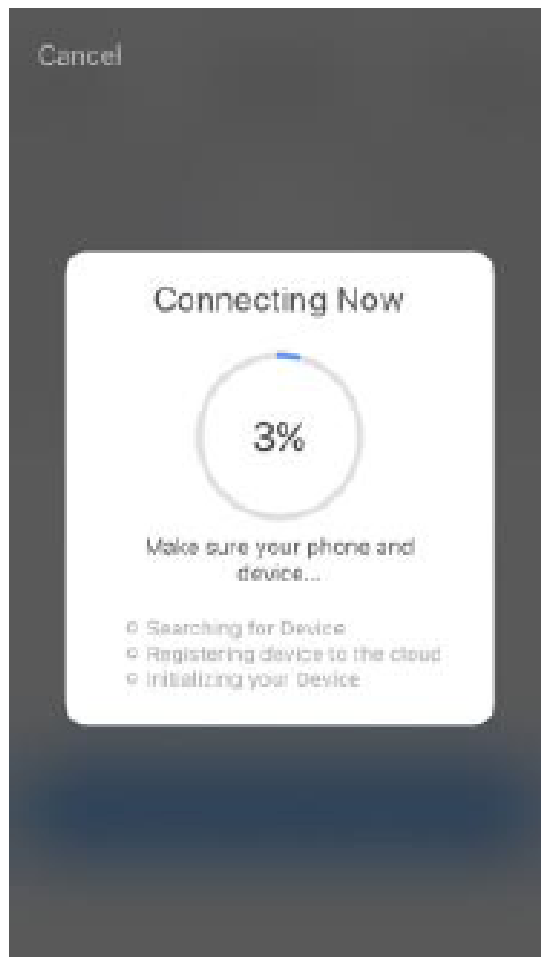

Confirm light rapidly blink

Step 7:
Enter the Wi-Fi Password (Your phone should be connected to the same Wi-Fi first)

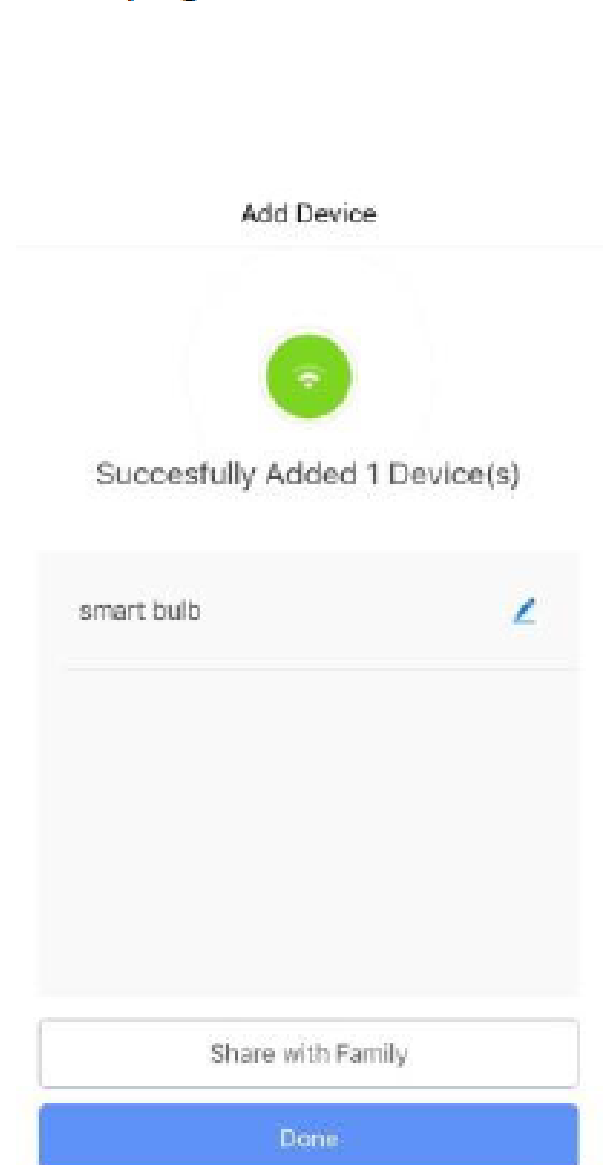

Step 8: It will be 100% in around 20 seconds.

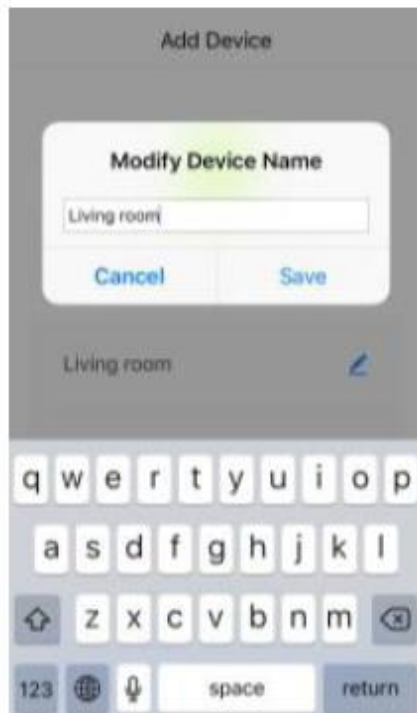

-----If it is failed,
repeat step 3 to step 7 and contact the seller for help.

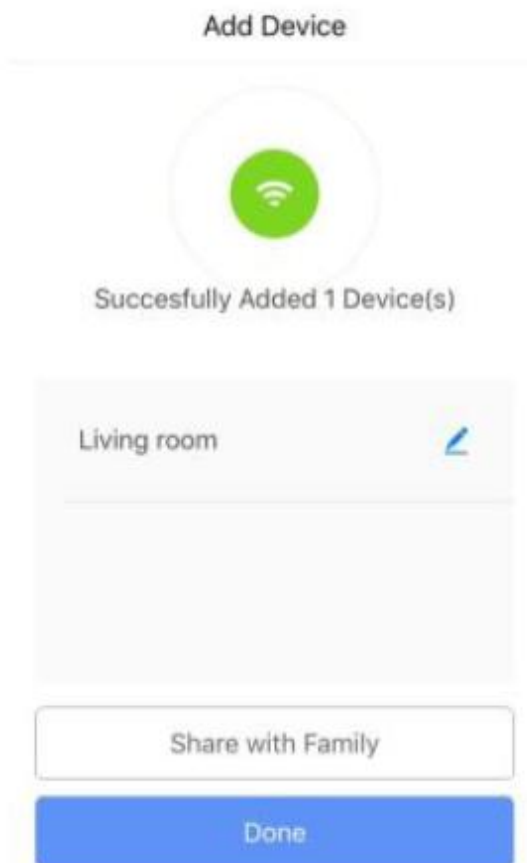

Step 9: Edit the name of your smart plug

Step 10: Delete the default name and input a new one(Simple Names will be identified easily by Echo or Google Home)

Step 11: Press Done

Step 12: Your plug is connected and you can control it by this App. If you need voice control, please refer Part 3 for Alexa, Part 4 for Google Assistant.

Congratulations! Now you can control it via App on your smartphone.

FQA:

1. Cannot download the right App.

A: Please come back to step 1 and download by scanning the QR code. Please use smartphone rather than tablet.

2. Cannot discover the smart plug by App.

A: Make sure that your Wi-Fi router is 2.4GHz, the phone connects to the same Wi-Fi, the indicator flashes quickly

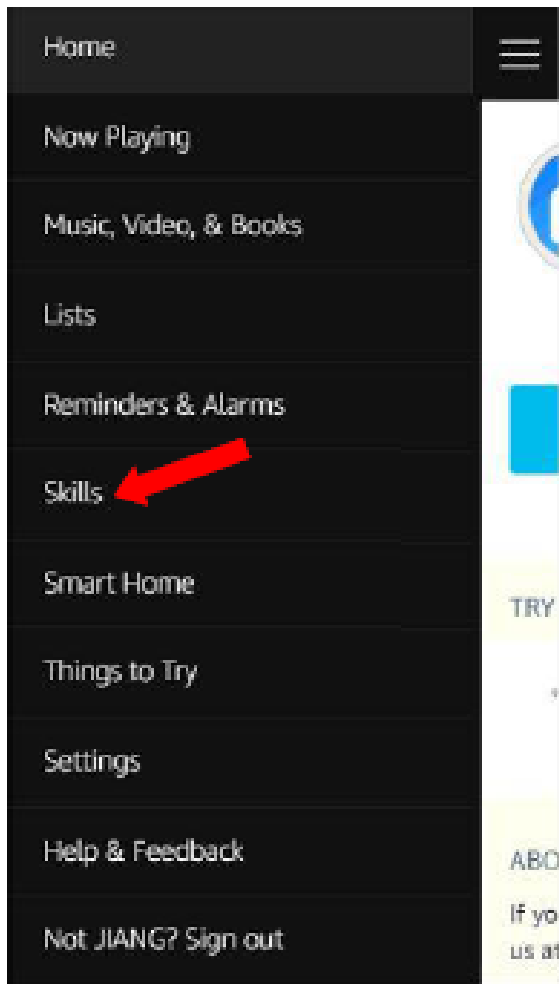

3. The light is not flash quickly for setting

A: Press the power button and hold it for 5s, and it will flash quickly.

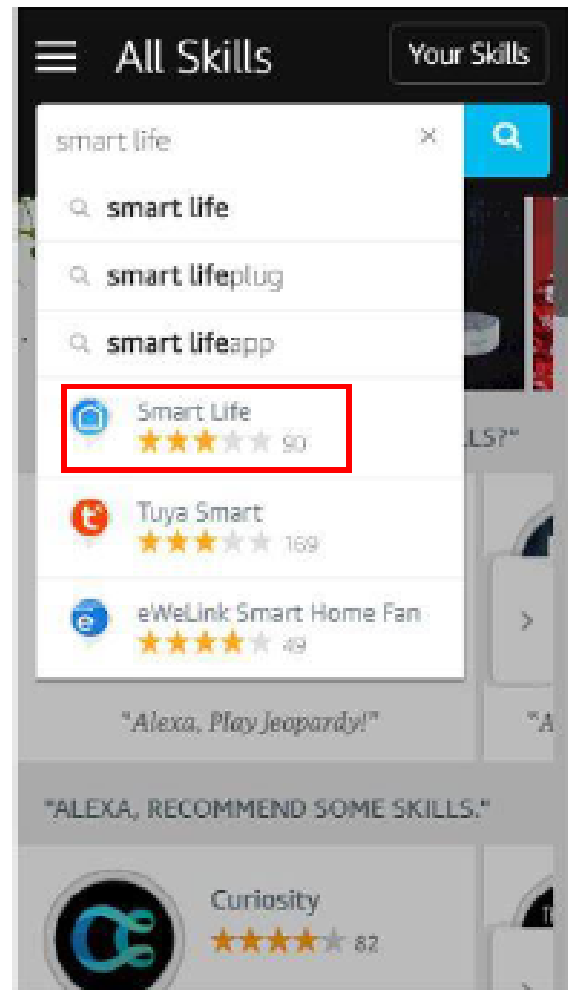

Part 3: Connect The Smart Plug to Alexa

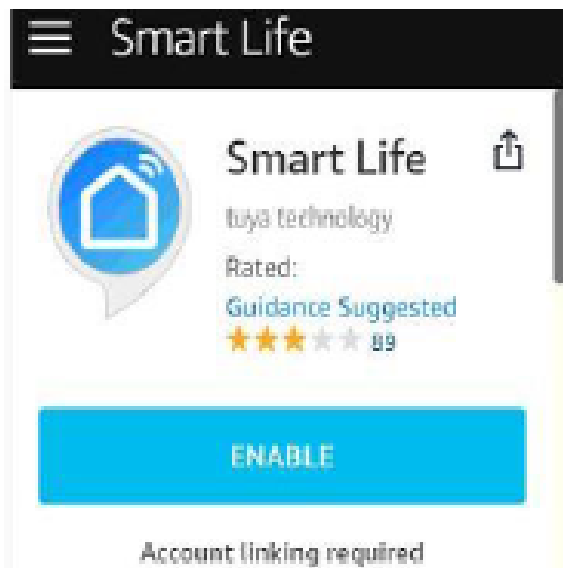

Step 1: Log in your Alexa account on a smartphone or a computer, then click Skills

Step 2: Search "Smart Life" and select the right one according the blue logo (same with App)

Step 3: Enable the skill

Step 5: The Account is linked successfully, then tap Authorize to Complete.

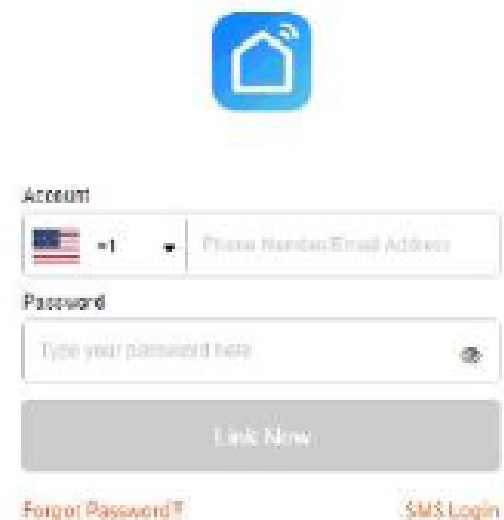

Alexa by Amazon will be able to:

- Receive your public profile
- Control your devices over internet

Step 4: Login the account you registered on the App in Part 2, then click "Link Now"

Step 6: Congratulations! You can use Alexa Devices (Echo) to control the Bulb you connected in the App.

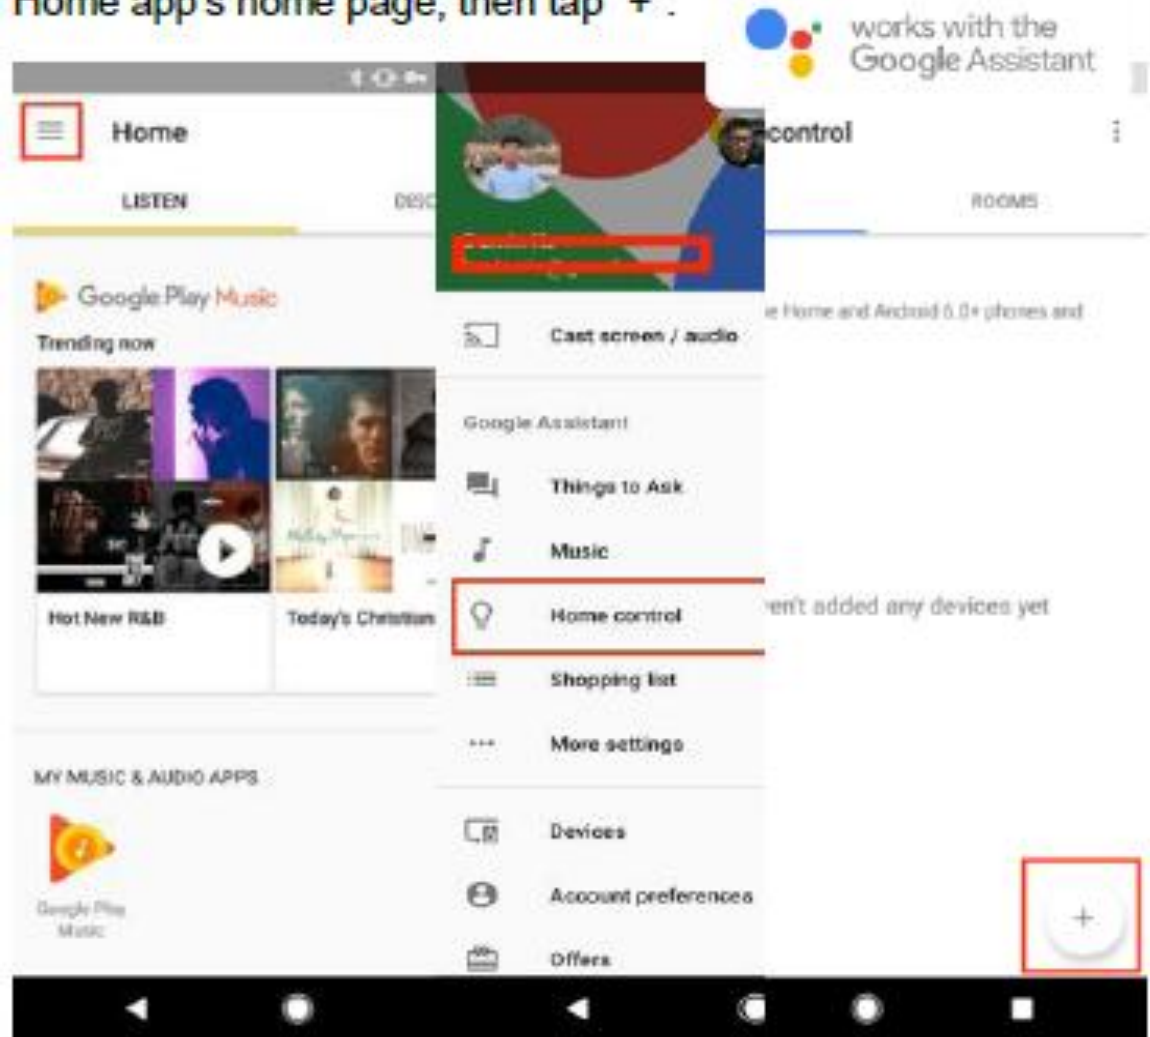

If you want to delete or add new bulbs, please delete or add them in the Smart Life App (Part 2), the Alexa Side will synchronize automatically.

If you cannot see the name Bulbs in the Devices List in Alexa Page, you can click "Discover" in Alexa Page, it will synchronize from the Smart Life App.

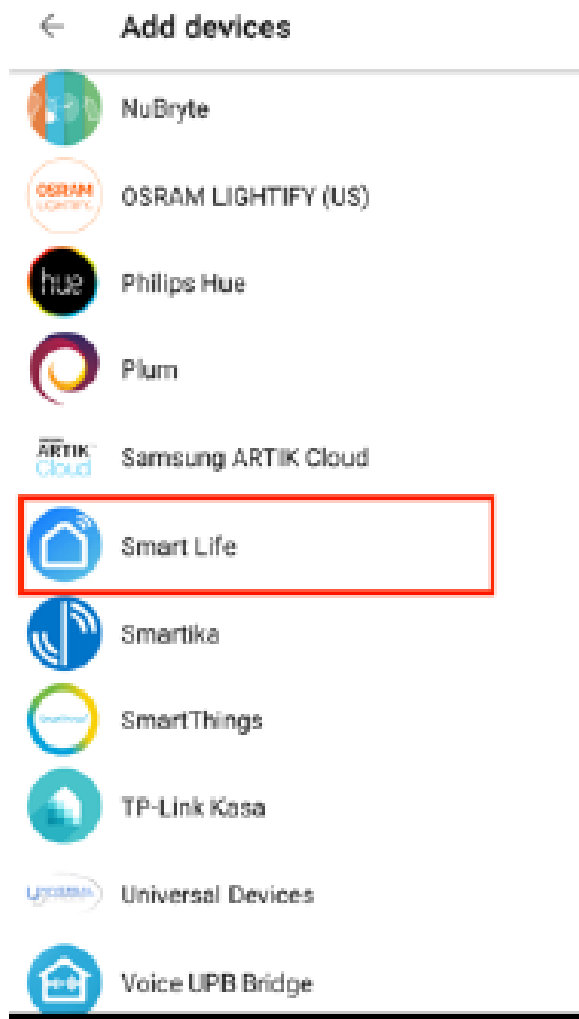

Part 4: Connect your Smart Plug to Google Home

Notice: Part 2 must be completed before doing this part 4

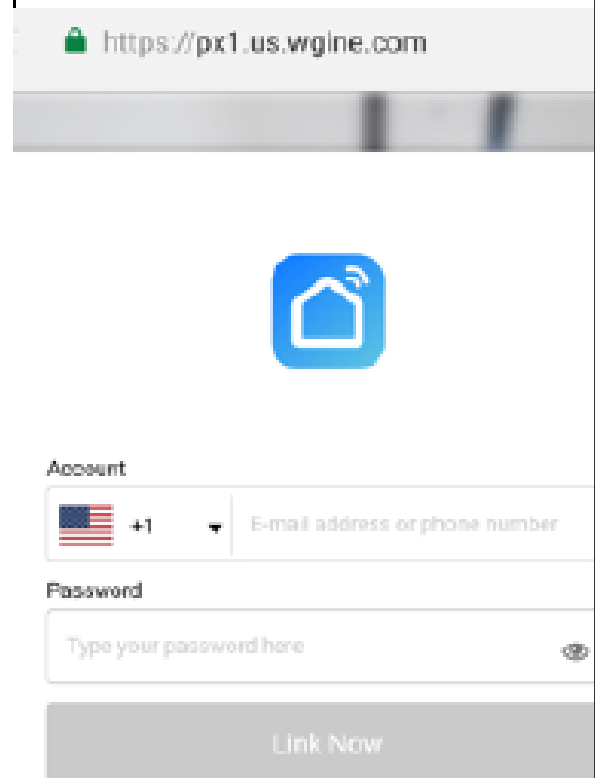

Step 1: Tap "Home Control" in the hamburger menu on the Google Home app's home page, then tap "+".

Step 2: Find "Smart Life" in the list.

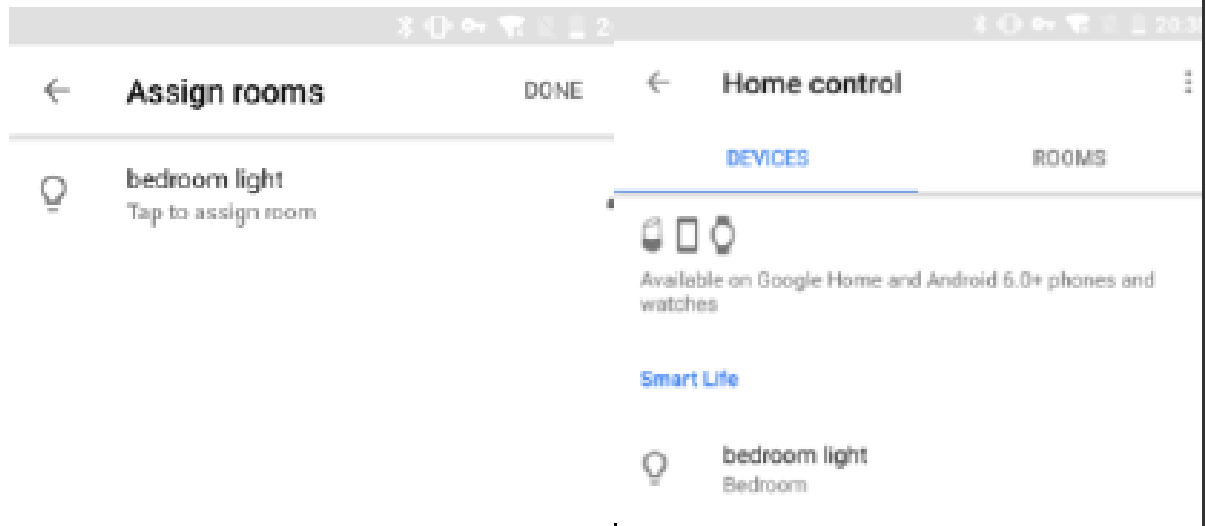

Step 3: Type your Smart Life account and password you registered in Part 2, then tap "Link Now".

This Account must be the same one you registered in the Smart Life App in Part 2

Step 4: After you assign rooms for devices, your devices will be listed in the Home Control page.

Warning:

- Plug in fully to the wall outlet while using
- Do not insert a conductor or other tools to the socket hole
- If there is radio frequency interference, it might affect the operation
- Indoor use only
- Do not use in bathroom and other damp locations
- Please ensure the security of the electricity, resistive load current cannot be higher than capacity
- Please keep the device out of the reach of children to avoid danger.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception,

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.
