RE: Declaration of Similarity
FCC ID: 2ANL3-ANTS1001

To Whom It May Concern:

Please be advised that the differences between models ANTS1001-XX0010*, ANTS1001-XX0030*, ANTS1001-XX0060*, ANTS1001-XX0120*, ANTS1001-XX0300*, ANTS1001-XX0600*, ANTS1001-XX1800*, ANTS1001-XX3600* is the RF transmission delay between RF blocks. This can vary from 10 seconds to 3600 seconds.

They can share RF test data because they have the exact same Hardware, and the same maximum duty cycle.

Sincerely yours,

Alan McCall
Technical Director
Sensotek Ltd

(*): XX corresponds to the calculated parameters method which is customer dependant but has no impact on the RF sampling timing
