Confidentiality Request
FCC ID: 2ANLB-MESADAA00051

Pursuant to Sections 0.457(d)(1)(ii) and 0.459 of the Commission's Rules, Echodyne Corp. hereby requests permanent confidential treatment of information accompanying this application as outlined below:

- Exhibit 4 Block Diagram
- Exhibit 5 Schematic and Description of Circuitry
- Exhibit 8 MESA Radar User Manual
- Exhibit 9 Internal Photo
- Exhibit 12 Operational Description

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these matters might be harmful to the Applicant and provide unjustified benefits to its competitors. The Applicant understands that pursuant to Rule 0.457(d)(1)(ii), disclosure of this Application and all accompanying materials will not be made before the date of the Grant for this Application.

We are requesting permanent confidential treatment of the internal photos and user manual for the following additional reasons:

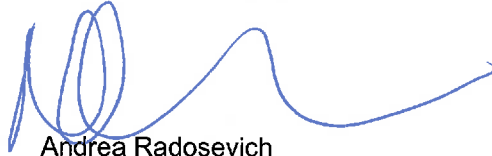

1. The radar is not a consumer device. It is sold to commercial customers under NDA and subject to a prohibition on resale. The NDA restricts any sharing or display of the device itself or any information relating to the device.
2. The circuit board and internal components are not accessible to users. They are enclosed in a permanently sealed, water-tight, tamper-proof aluminum housing. The radar can only be serviced by returning it to the manufacturer. The NDA includes a provision that the customer will not disassemble, reverse engineer or x-ray the device.
3. The customer will integrate the radar into a commercial unmanned air vehicle (UAV) airframe and the device will not be accessible to the public.
4. The user manual contains proprietary technical information intended to help commercial customers integrate the radar into a UAV system. The customer is obligated under NDA to keep the user manual confidential. The customer may not resell or distribute the radar or the user manual.
