Software Defined Radio

Is this application for software defined radio authorization?
Yes or No

Equipment Class

Equipment Class (see pages 5-7): DSS
Description of product as it is marketed: (NOTE: This text will appear below the equipment class on the grant): WIFI MODULE

Related OET Knowledge Data Base Inquiry

Is there a KDB inquiry associated with this application?

Yes or No

Modular Equipment

Modular Type:

- Single Modular Approval
- Limited Single Modular Approval
- Does Not Apply

Application Purpose

Application is for:

- Original Equipment
- Change in identification of presently authorized equipment
- Class II Permissive Change or modification of presently authorized equipment
- Class III permissive change to software defined radio

Original FCC ID:
Grant Date:

NOTE:This may only be filed for applications pertaining to Software Defined Radio.

Composite/Related Equipment

Is the equipment in this application a composite device subject to an additional equipment authorization? Yes or No

Is the equipment in this application part of a system that operates with, or is marketed with, another device that requires an equipment authorization? Yes or No

If either of the above questions is answered "yes", complete the following question:

The related application:

- has been granted under the FCC ID listed below:
- is in the process of being filed under the FCC ID listed below:
- is pending with the FCC under the FCC ID listed below:

Grant Comments

Enter any text that you would like to appear at the bottom of the Grant of Equipment Authorization:

Modular Approval. Power Output listed is Conducted. This device is granted for use in Mobile only configurations in which the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and not be co-located with any other transmitters except in accordance with FCC multi-transmitter product procedures. Only those antenna(s) tested with the device or similar antenna(s) with equal or lesser gain may be used with this transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance. The Grantee is responsible for providing the documentation required for modular use. The responsibility for the use of this module, in all configurations utilized or contemplated, remains with the Grantee.

Applicant/Agent Certification:

I certify that I am authorized to sign this application. All of the statements herein and the exhibits attached hereto, are true and correct to the best of my knowledge and belief. In accepting a Grant of Equipment Authorization as a result of the representations made in this application, the applicant is responsible for (1) labeling the equipment with the exact FCC ID specified in this application, (2) compliance statement labeling pursuant to the applicable rules, and (3) compliance of the equipment with the applicable technical rules. If the applicant is not the actual manufacturer of the equipment, appropriate arrangements have been made with the manufacturer to ensure that production units of this equipment will continue to comply with the FCC's technical requirements.

Authorizing an agent to sign this application, is done solely at the applicant's discretion; however, the applicant remains responsible for all statements in this application.

If an agent has signed this application on behalf of the applicant, a written letter of authorization which includes information to enable the agent to respond to the above section 5301 (Anti-Drug Abuse) Certification statement has been provided by the applicant. It is understood that the letter of authorization must be submitted to the FCC upon request, and that the FCC reserves the right to contact the applicant directly at any time.

Definitions

Subject	Description
Confidentiality	If this item is answered "Yes" a fee is required for the "Request for Confidentiality" in addition to the fee for the requested equipment authorization. The written request for confidentiality must include a justification consistent with the requirements in 47 CFR Section 0.459(a) and (b). The confidentiality request must specifically identify the material to be held confidential. See 47 CFR Section 0.457(d), The material to be held confidential, along with a copy of the request, must be specifically annotated as a separate file in the Exhibits portion of this application.
Software Defined Radio	Select "Yes" if this application meets the definition of a software defined/cognitive radio (SDR) and is being applied for in this application. Software defined/cognitive radio, for regulatory purposes, is defined as "a radio that includes a transmitter in which the operating parameters of the transmitter, including the frequency range, modulation type or maximum radiated or conducted output power can be altered by making a change in software without making any hardware changes." At the present time TCBs cannot certify Software Defined Radios. These applications must be sent directly to the FCC for certification.
