

Differences Description

We Linkplay Technology Inc. state:

Product: Wireless Smart Audio Module

Model Name: A88, A88-2

FCC ID: 2ANOG-A88

The electrical circuit design, components used and internal wiring for above models are identical, the original device used the software shielding:

IEEE 802.11a/ n (HT20) 5.180GHz-5.240GHz

IEEE 802.11n (HT40) 5.190GHz-5.310GHz

IEEE 802.11a/ n (HT20)5.260GHz-5.320GHz

IEEE 802.11n (HT40)5.270GHz-5.310GHz

IEEE 802.11a/ n (HT20)5.500GHz-5.700GHz

IEEE 802.11n (HT40)5.510GHz-5.670GHz

IEEE 802.11a/ n (HT20)5.745GHz-5.825GHz

IEEE 802.11n (HT40)5.755GHz-5.795GHz

the new device used the software opening this function, only added reports for these new function.
