

### **Antenna gain information**

The antenna gain has been measured in the test report “S201A \_ SBV-01 Antenna Radiation Pattern and Gain.pdf”. This report contains commercial sensitive information and is therefore held permanently confidential.

The information required to calculate conducted power from the radiated power is summarised below.

Frequency (GHz)	Polarisation	Maximum Gain (dBi)
60	H	4
61	H	9
62	H	8
63	H	9
60	V	3
61	V	8
62	V	9
63	V	10

All other details can be read in test report “S201A \_ SBV-01 Antenna Radiation Pattern and Gain.pdf”.
