

Important Instructions

Subject: Speed Queen Insights Network Setup

Use With: Speed Queen Insights

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le present appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisee aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioelectrique subi, meme si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with FCC/IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

ce materiel est conforme aux limites de dose d'exposition aux rayonnements, fac / ic rss-102 enoncee dans un autre environne-

ment.cette equipment devrait etre installe et exploite avec distance minimale de 20 entre le radiateur et votre corps.

Kit includes the following:		
1	-	Gateway
1	9-17-348	Instructions

1. Plug in the gateway.
2. From your WiFi enabled device's list of available local connections, select SPEEDQUEEN. The application opens as shown in *Figure 1*.

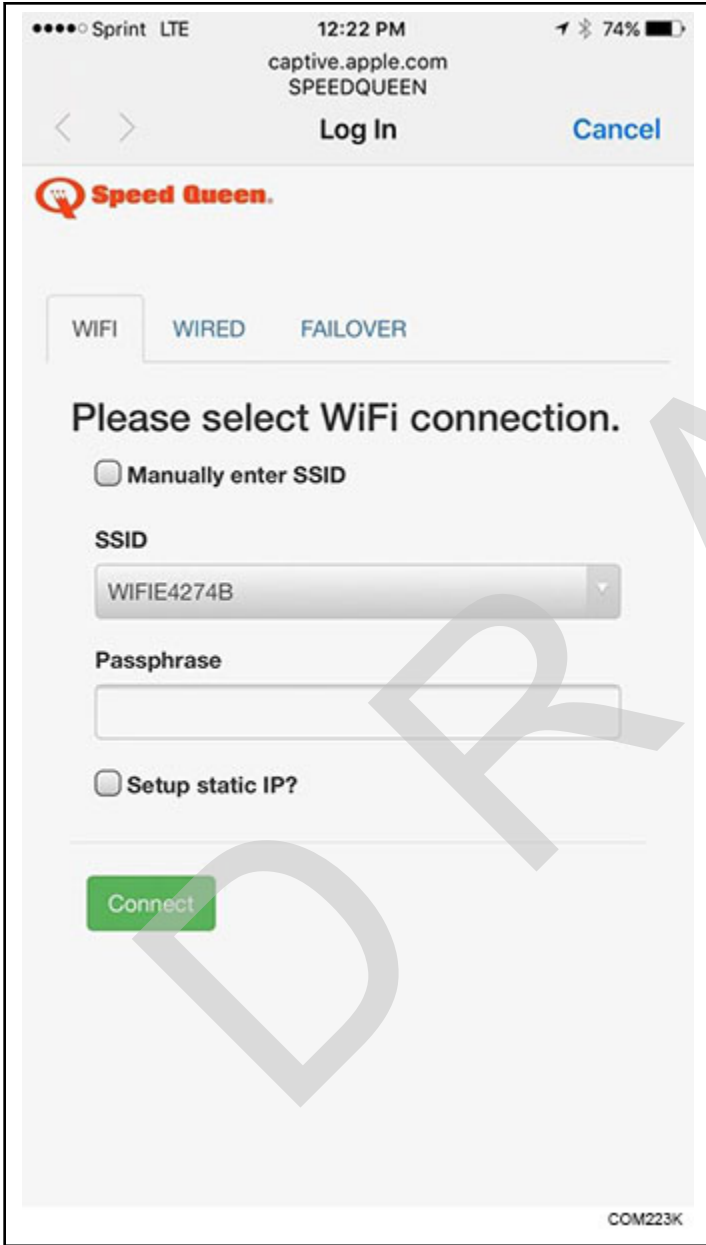

Figure 1

3. If the gateway will have a wireless connection to the internet, from the WIFI tab, select the WiFi connection under the SSID heading. Refer to *Figure 1*.

4. If your IP is static, from the WIRED tab, enter the IP information under the Static IP heading. Refer to *Figure 2*.

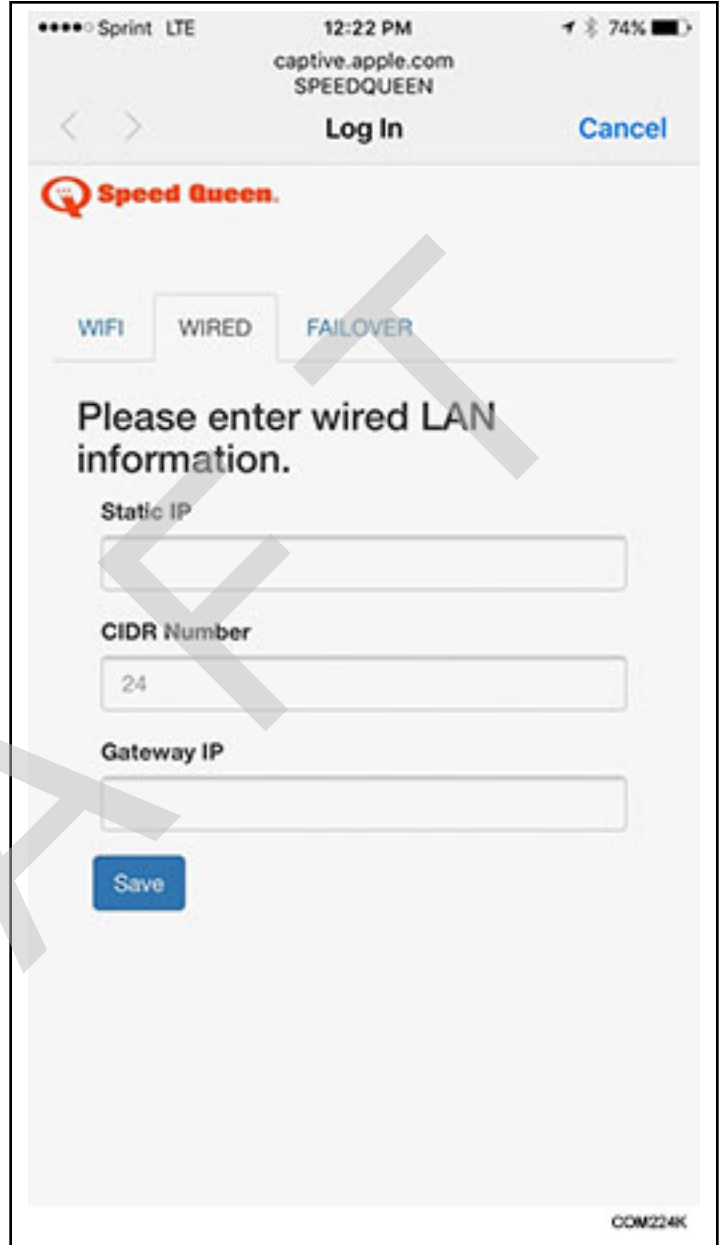

Figure 2

5. If your payment system includes a backup device, from the FAILOVER tab, enter the backup device's information. Refer to *Figure 3*.
