Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern:

Medeia Inc, hereby requests a Permissive Change Class II of the radio equipment certification for our product HW9 certification number, FCC ID: 2ANW8-HW9. This product differs from the originally approved product Cinterion EHS6, FCC ID: QIPEHS6 in the following manor:

The only changes are in the associated digital circuitry, antenna dimensions and device enclosure.

I do attest that the Field strength and/or RF Output readings remained the same or are lower than the originally approved product and that they did not increase therefore qualifying this product for this application type.

Sincerely,  
Slav Danev  
President  
Medeia Inc
