Attention: Application Examiner / Review Engineer

Subject: Request for a Class II Permissive Change

FCC ID: 2ANWR-WMOD200

Grant Date(s): 01/27/2022

Pursuant to CFR47 §2.1043, the Grantee hereby requests a Class II Permissive Change for the above identified device.

Following changes apply to the modified device:

This modular transmitter is integrated by the Grantee into his own host device “Wöhler VIS 500 Inspektionskamera” using a unique antenna trace design with an integrated PCB Antenna (W2.4-5P-U by Inventek Systems / 2.6 dBi antenna gain). Due to bandedge compliance issues the power settings of 802.11 g-mode and n20-mode (channel 10+11) have been reduced and documented in the test report and are to be addressed for the integration of this transmitter module into this host device.

Portable operating conditions have been addressed by the submitted SAR Report.

The Modular Type changes to Limited Modular Approval.

Sincerely,

Authorized Agent
