

# TiBe Connect Guide de démarrage rapide

## A propos de votre TiBe

Votre TiBe est un appareil Bluetooth® Smart qui vous permet de localiser facilement votre smartphone égaré.

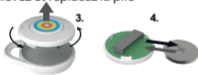

En attachant TiBe à vos affaires, vous pouvez les retrouver à l'aide de votre smartphone.

## Démarrage du TiBe

- 1- Tirez délicatement la languette
  - 2- Appuyez sur le bouton 5sec. jusqu'au signal sonore
- 

Si pas de signal sonore :  

- 3- Ouvrez le boîtier
- 4- Enlevez et remplacez la pile

- 5- Appuyez à nouveau 5 sec jusqu'au signal sonore  
Recommencez l'opération si nécessaire.
- 6- Fermez le boîtier
- 7- Reliez le TiBe à l'application mobile

Service d'aide : [contact@ticatag.com](mailto:contact@ticatag.com)

## Téléchargez l'application TiBe

Scannez le QR-Code et vous arriverez directement sur la page de téléchargement.

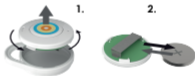

## Comment changez la pile?

TiBe utilise une pile standard de type CR2032.

**Astuce :** Le niveau de votre pile est indiqué dans les paramètres de l'application TiBe, en appuyant sur l'icône .

Pour remplacer la pile, procédez comme suit :

1. Ouvrez le couvercle côté bouton en le pivotant dans le sens contraire des aiguilles d'une montre,
2. Faites glisser la pile, puis changez-la, avec le côté positif sur le dessus,
3. Refermez le couvercle.

## Bouton Connecté comme télécommande

TiBe est aussi un bouton connecté pour piloter à distance les objets connectés référencés sur le site [www.IFTTT.com](http://www.IFTTT.com)

Pour transformer TiBe Connect en **Bouton connecté**, procédez comme suit :

- 1- Ouvrir le boîtier,
- 2- Remplacer la partie avec l'attache par la coque fournie dans l'emballage,
- 3- Refermer le boîtier

# LEGAL NOTICE

## FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference and
2. This device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Note: This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does not cause harmful interference to radio or television reception, which can be determined by tuning the equipment off and on, the user is encourage to try to correct by one or more of the following measures:

- Reorient or relocate the receiving antenna

- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

## FCC Radiation Exposure Statement

This equipment complies with Radio frequency exposure limits set forth by the FCC for an uncontrolled environment. This equipment should be installed and operate with a minimum of distance of 5mm between the device and the user or by standers.

This device must not be co-located or operating in conjunction with any other antenna or transmitter.

## EU Declaration of conformity

Ticatag SAS hereby declare that this equipment is in compliance with the essential requirements and any other relevant provisions or Directive 2014/30/EU, Standards EN 55022: 2010, EN 55024: 2010+A1: 2015, EN301489, EN300328, EN62479, EN60950.

Declaration of conformity and test reports are available on request at [contact@ticatag.com](mailto:contact@ticatag.com).
