TWS (True Wireless Stereo) pairing

1. You can pair two speakers of this same model together.
 2. Turn Bluetooth off on your device, place two matching speakers together, power them on and switch to Bluetooth mode.
 3. Quick press "+" and "-" at the same time on one speaker, the speaker of the first power on will be the master speaker, second power on is the slave speaker.
 4. They will automatically pair, when they are paired successfully and there will be a chime. the indicator for master speaker will flash blue, the indicator for slave speaker will stay the solid blue.
 5. On your device turn Bluetooth on, and pair to one of the speakers.
 6. When the music is played, the master speaker is the left channel and the slave speaker is the right channel.
 7. To maintain TWS pairing, turn Bluetooth off on your device before powering the speakers back on, the speakers will pair automatically, then re-pair with your device.
- note: To disconnect, quick press "+" and "-" at the same time on one speaker again.

Troubleshooting:

1. If the speaker is not working correctly, turn it on/off to restart.
2. If the speaker won't turn on, recharge the battery and try again.
3. If the speaker won't charge, make sure the supply works, is 5V 2A, and not damaged.
4. If the speaker makes no sound or does not show as an available device, make sure it is not paired, if so unpair the device and re-pair the desired device.
5. If the speaker cannot be operated despite being turned on, hold the power button for 8 seconds to reset.

FCC ID: 2AC23-ETS14 Model: ETS14 Input: 5V #2A Max Made in China
This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. • Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
