- Dial Last Incoming Call - Press play twice

## aux/line in

- Insert 3.5mm audio cable (not included) into speaker AUX port
- Insert opposite end of audio cable into the music source

## TWS (True Wireless Stereo) pairing

- You can pair two of this model of speaker together to get true stereo sound
- Turn bluetooth off on your device, Place two matching speakers together, power them on
  - Hold play for 2 sec. on one speaker, this is the left channel - they will pair automatically
  - Turn bluetooth on, on your device, and pair to one of the speakers
  - Speakers will now pair automatically, turn off bluetooth on your device before powering on
  - Pairing of multiple speakers does not rely on the "Dual Audio" feature of newer phones

## fm radio

- Slide Power to FM
- Press and hold play, speaker searches and saves FM channels
- Use < > to change stations, FM range between 88MHz - 108MHz

## troubleshooting

- If the speaker is not working correctly, turn it on/off to reset
- If the speaker won't turn on, recharge the battery and try again
- If the speaker won't charge, make sure the supply works, is 5V/1A, and not damaged
- If the speaker makes no sound or does not show as an available device, make sure it is not paired to a different device already

FCC ID: 2A023BTSP51 Model: btsp51 Input: 5V ■ Max 1A Made in China  
This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept interference received, including interference that may cause undesired operation.  
Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **FCC Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

## **FCC Radiation Exposure Statement:**

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
