charging

- Full charge requires less than 2.5 hours
- Charging is complete when light turns off
- Plug micro end of charger into earbuds
- Plug the USB end into a USB power supply of DC 5V 1A minimum **warning:** please use UL compliant power supply

phone calls

- Answer/End incoming calls - Press center button
- Dial last incoming call - Press center button twice

troubleshooting

- If the earbuds are not working correctly, turn them on/off to reset
- If the earbuds won't turn on, recharge the battery and try again
- If the earbuds won't charge, make sure the power supply works, is 5V>1A, and not damaged
- If the earbuds make no sound or do not show as an available device, make sure they are not paired, if so unpair the device and repair the desired device

FCC ID: 2A023-BTWB88C Model: BTWB66C Input: 5V ■ Max 1A Made in China
This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept interference received, including interference that may cause undesired operation.
Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
