ATRIX AUDIO BUNDLE FOR WIRELESS HEADPHONE AND SPEAKER USER GUIDE

Speaker LED Indicators

- Rapid Flashing Blue - Pairing
- Solid Blue - Paired
- Solid Red - Charging
- No Red light - Charging complete

Pairing the Speaker

- **Pairing:**
 - Power ON the speaker.
 - When pairing for the first time the speaker will automatically enter pairing mode. The indicator light will rapidly flash blue when it is ready to pair.
 - Use the bluetooth settings on your device to pair with "AtrixSpeaker".
 - The speaker is connected when the indicator light turns solid Blue.
 - Once you are paired with a device it will automatically reconnect the next time you turn it on if it's in range with the device and Bluetooth mode is switched on.

- **Re-enter Pairing:**
 - To re-enter pairing mode disconnect from your device using the bluetooth menu.

Charging the Speaker

- Plug the Micro-USB end of the charging cable into the speaker.
- Plug the USB-A end of the charging cable into a UL compliant power supply of at least DC 5V 500mA.
- A full charge requires approximately 2 hours.
- The Red light will turn off when charging is complete.

Important Safety Instructions

WARNING When using this product, basic precautions should always be followed, including the following:

Read these instructions carefully.

All cautions and warnings should be followed.

Protect equipment from humidity.

Do not use chemical detergents to clean your device, use a soft dry cloth.

To avoid damage from electrical shocks unplug the device when it is not in use.

If one of the following situations arise, equipment has to be checked by qualified service personnel:

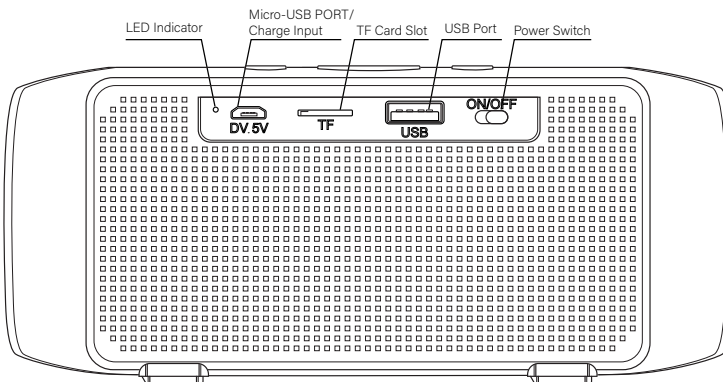

- Liquid has penetrated into the equipment.
- Equipment has been exposed to humidity.
- Equipment has been dropped and/or is damaged.
- Equipment has obvious sign of breakage.
- Equipment does not work well or you cannot get it working according to user's manual.

SAVE THESE INSTRUCTIONS

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

Stop Searching Radio

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
