

Casa Systems, Inc.

Declaration

Date: December 19, 2022

Federal Communications Commission

Authorization and Evaluation Division

Application for certification of FCC ID: 2AO385G2101-48

The maximum antenna gain of the external antenna used by 5G2101-48 products is 8dBi, and there will be a path loss of 0.5dB inside when using the external antenna, so the maximum antenna gain of the external antenna is equal to 7.5dBi when testing CBSD-SAS N48.

Sincerely,

Benjamin Perreault
