

## The image shows the back of a white iPod nano (2nd generation). It is a rectangular device with rounded corners. Four screws are visible, one in each corner, securing the back cover. In the center of the back cover is a small, circular, dark-colored click wheel. The device is placed on a blue surface with a white grid pattern, which appears to be a cutting mat. A ruler is visible along the right edge of the mat, showing measurements in inches and centimeters.

## A clear plastic protective case for a GoPro camera, shown from the back. The case is rectangular with rounded corners and a textured, ribbed border. It features a large circular cutout in the center for the camera lens. The GoPro logo is visible on the left side of the case. A white label on the right side contains the following text: "EV71 3C-3", "Model: SC01", "Designed by Compology", "Made in USA", "FCC ID: 2A044-SC01", "IC ID: 23661-SC01", and "IFT ID: XXXXXXX". The case is placed on a blue surface with a white grid pattern.

## A vintage typewriter is shown from a side-on perspective, resting on a blue surface with a white grid pattern. The typewriter has a light-colored, possibly cream or off-white, keyboard and a dark, rounded body. The keyboard is visible, showing the keys and the underlying mechanism. The body of the typewriter is dark and has a smooth, rounded top. The overall appearance is that of a well-preserved, classic piece of office equipment.

## A vintage typewriter with a black body and a white keyboard, resting on a blue grid surface. The typewriter has a large, rounded, black camera-like lens on the left side of the keyboard. The keyboard is white with black keys. The typewriter is positioned vertically on a blue grid background.

## A close-up photograph of a mechanical keyboard keycap, viewed from the bottom. The keycap is white with a black base and a black dome-shaped top. It is positioned against a blue background with a white grid pattern.
