

## 2.4G Wireless Dimming & CCT adjustable LED Panel

### THE WALL TYPE REMOTE CONTROLLER

	Turn on     Turn off
+	<b>Lights code matching combination keys</b> Pressing the buttons "ON" + "OFF" simultaneously to keep remote controller's indicator light always on, trun on the light for 2 Seconds then loosen the combination keys, matching code finished. Matching code with many lights at the same time is available.
	<b>Brightness adjustment</b>
	Press the CCTbutton,color temperature will circularly change among 3000K /3500K/4000K/5000K.After shutting down it will save the current color temperature.

Remote control should match code with lamps seperately, after the hand-hold remote control coding is completed, if using the wall-type remote control to code again, it will replace the code of handheld remote control,then changing into a seperate control of the wall-type remote control.

#### The matching method of hand-hold remote controller and wall-type remote controller

NO.	Grouping	Hand-hold controller	Wall-type controller
1	1	1 + ID	ON+CCT
2	2	2 + ID	ON+CCT
3	3	3 + ID	ON+CCT
4	4	4 + ID	ON+CCT
5	All	ID	ON+CCT

After 10s of each operation the light will enter standby power saving mode. If you need to make adjustments,simply press the 'ON' button, the indicator will flash to show it is working.

#### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
