3. Charging interface: please use 5V 2A charger to connect the machine for charging.
4. 2 microphone connectors.
5. Power key.

Handling of common problems

Insufficient charging or long charging time	<ol style="list-style-type: none"> 1. The charger specification is wrong, please use 5V 2A charger for charging. 2. The quality of the charging cable is poor, please use the original USB charging cable 3. Please check whether the charging port of the machine is in good condition. If it is damaged, please stop using it and send it for repair as soon as possible.
Unable to power on	The battery is dead. Please charge it.
Can't connect WiFi	WiFi password input error, please re-enter WiFi password, pay attention to case sensitive. WiFi frequency must be 2.4GHz.
Forget the password	Enter initial password "8888".

Warning

1.This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio

communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure statement.

The device can be used in portable exposure condition without restriction

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

2. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

FCC Warning Statement
