Dear whom this may concern,

We, GNET SYSTEM.CO.,LTD, the applicant of FCC compliance test for WiFi Dongle are aware of that this device may cause harmful effect to human body in certain circumstance.

So we declared recommended specific usage in the product manual to prevent any possible misuse. We also declared the minimum distance between human body and the WiFi dongle to keep the user form considerable amount of radiation exposure.

In addition, we confirm again that this device is designed to be used only on the dash board camera. And we have no intention to advertise of promote this WiFi dongle with any other devices but dashboard camera.
