• Features:

- Plug and Play. Easy to set up and good sound quality.

Compatible with 99% of TVs on the market, supports OPTICAL / 3.5mm AUX / RCA audio output. Need to set tv audio to "PCM" and "External Speaker". Normally our tv headphones get sound in regular tv, but not 100% compatible with streaming tv / APPs, like Netflix.

- No Audio Delay. RF Wireless headset that not only connects right away but keeps the connection steady all the way and it does that with absolutely zero lag. Allow you to listen to music while walking around in your home without skip or interruption. up to 330 ft/100m outdoors. please note that physical obstacles may negatively affect the actual range.
- Amazing Sound. Enjoy Hi-Fi stereo sound without compromise. Superb audio quality from a 40mm dynamic driver with a range of 60Hz-15Khz Frequency. Digital signal you the extra bass and crisp treble performance without distortion! stretchable band and premium protein earmuffs offers you a comfortable wearing experience and a stylish look for long time use.

- **Technical Specifications:**

Frequency Response: 60Hz-15KHz

Operating Voltage: 5V 2A

Transmission Range: Up to 100 meters (open area)

Charging Time: 5-6 hours

Operating Time: Approximately 12 hours

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
