

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Conducted Emission
Test Setup**

**Radiation Emission Test
Setup (Below 30MHz)**

<p>Radiation Emission Test Setup (30MHz to 1GHz)</p>	<p>A photograph of a radiation emission test chamber. The walls are lined with white, square-shaped electromagnetic interference (EMI) absorbers. A yellow, rectangular test fixture is positioned on a circular platform in the center. A metal frame with several vertical rods is visible in the foreground, likely used for mounting antennas or sensors. The floor is concrete with yellow and black striped safety markings.</p>
<p>Radiation Emission Test Setup (1GHz to 18GHz)</p>	<p>A photograph of a radiation emission test chamber. The walls are lined with white, square-shaped EMI absorbers. A yellow, rectangular test fixture is positioned on a circular platform in the center. A red, triangular-shaped absorber is visible on the right side. The floor is covered with blue, pointed EMI absorbers. A metal frame with several vertical rods is visible in the foreground.</p>

Radiation Emission Test Setup (Above 18GHz)
