

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a device, specifically the housing and board. The components are laid out on a blue textured surface next to a black ruler with white markings. The ruler is oriented vertically, with the 0 mark at the top. The housing is a light gray plastic shell, and the board is a dark gray printed circuit board (PCB) with various electronic components, including a battery, a small display, and several connectors. The components are arranged in a way that shows their relative positions and connections.
EUT Housing and Board View 2	 A photograph showing the internal components of a device, specifically the housing and board, from a different perspective than View 1. The components are laid out on a blue textured surface next to a black ruler with white markings. The ruler is oriented vertically, with the 0 mark at the top. The housing is a light gray plastic shell, and the board is a dark gray printed circuit board (PCB) with various electronic components, including a battery, a small display, and several connectors. The components are arranged in a way that shows their relative positions and connections. A small black component, possibly a USB connector, is visible on the right side of the board.

EUT Housing and Board View 3	
Solder Board-Component View 1	

Solder Board-Component View 2	 A photograph of a small, irregularly shaped black printed circuit board (PCB) with various electronic components soldered onto it. The components include several small surface-mount components, a larger square component in the center, and a small antenna on the right side. The board is placed on a blue background with a black ruler showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Antenna View	 A photograph of the same PCB from a different angle, focusing on the antenna. A red box highlights the antenna, and a red line points to it from the text "BT Antenna" in a white box. The board is placed on a blue background with a black ruler showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
