

Modular Approval Request Letter

FCC ID: 2AOFDMB86-B5

Data: April 16, 2018

Gentlemen:

There's an NB-IoT module that would like to have your authorization as a modular approval.

The specific product as below, NB-IoT module, with its designed features and specified description, meets special requirements for full modular approval on FCC Public Notice 15.212 Released: December 25, 2017 by cross-reference list below.

Company	: Zhejiang Lierda Internet of Things technology Co.,Ltd
Model Name	: NB-IoT Module(LTE)
Model Number	: MB86-B5
FCC ID	: 2AOFDMB86-B5

Requirement of Public Notice 15.212	Reference to MB86-B5
1. The modular transmitter must have its own RF shielding.	The module has its own RF shielding. Please see external photo.pdf
2. The modular transmitter must have buffered modulation/data inputs.	The modular has buffered data inputs, it is integrated in chip Hi2110GBCV120. Please see schematic.pdf
3. The modular transmitter must have its own power supply regulation.	All power lines derived from the host device are regulated before energizing other circuits internal to the Hi2110GBCV120. Please see schematic.pdf
4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c).	The MB86-B5 meets the FCC antenna requirements. It has a unique connector. Please see external photo.pdf
5. The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing.	The MB86-B5 was tested in a stand-alone configuration via a PCMCIA extender. Please see conducted set-up photo.pdf and spurious set-up.
6. The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The label position of MB86-B5 is clearly indicated. If the FCC ID of the module cannot be seen when it is installed, then the host label must include the text: Contains FCC ID: 2AOFDMB86-B5. Please see the label.pdf
7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The MB86-B5 is compliant with all applicable FCC rules. Detail instructions are given in the Users Manual.
8. The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	The MB86-B5 is approved to comply with the applicable RF exposure requirement, please see the MPE evaluation with 20cm as the distance restriction.

Thank you.

Sincerely,

Henry Kim / Test Manager
