Re: RF exposure information for:

Product name: Smart Clima with FCC ID: 2A0FP-E0054

To Whom It May Concern:

Smart Clima is a portable device intended for use within 20 cm of humans and must demonstrate compliance to the either relevant SAR limits or demonstrate a maximum conducted output power less than the SAR exclusion thresholds pursuant to “KDB 447498 D01 General RF Exposure Guidance v06” at the specified distance to user and frequency range.

The properties of Smart Clima are as follows:

- Maximum average conducted output power: 13.8 mW
- Distance to user: < 5 mm
- Frequency range: 902 to 928 MHz

Power threshold according to KDB 447498 4.3.1: 16 mW

The power threshold for SAR exclusion is respected hence Smart Clima is compliant.
