## Declaration letter

Date: 2021-05-11

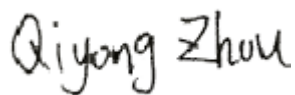

To Whom It May Concern,

The Statement about the antennas

From the EUT block diagram, there are three antennas, one supports wifi, the second antenna supports wifi&bt, the third antenna only supports Bluetooth antenna.

The performance of the connectivity is more powerful than the other platforms. This platform can support 2xMIMO. But for marketing purpose, we just enable two antennas, the single bluetooth antenna is disabled by software.

Sincerely,

Signature

Qiyong Zhou

Manager
