

Lone Worker 2.00 - Label Sample & Location

Overview

High quality labels will be applied to both the Remote and the Antenna module to provide both identification and compliance statements as per below

Remote

- Label location will be on the rear of the Remote
- The Remote has a recess which is 35mm x 30mm with 2mm corner radius and is 0.25mm deep. The Label will fit into this recess.
- Label material will be UV and heat resistant
- Label will be permanently affixed
- Label will include Product Name: **LW2 Remote** and FCC ID: **2AOJ3-LW2REM-AU-US**
- Label will include “Contains FCC ID: WAP2005”
- Label Sample as per below

Antenna

- Label location will be on the rear of the Antenna Module
- The Antenna does not have a recess, but the label will be placed on the rear.
- It is anticipated that the Label size will be similar to that of the Remote, being 35mm x 30mm with 2mm corner radius.
- Label material will be UV and heat resistant
- Label will be permanently affixed
- Label will include Product Name: **LW2 Antenna** and FCC ID: **2AOJ3-LW2ANT-AU-US**
- Label will include “Contains FCC ID: WAP2005”
- Label Sample as per below
