

## EN

LED Indicator	Status
Solid blue for 3 seconds, then off	Connected to power
Solid blue	Charging mobile device
Flashing blue	- Metal or abnormal temperature detected - Using an incompatible charger or cable

- Using an ultra-thick protective phone case or a case with a magnetic/iron plate is not recommended as it may affect the wireless charging function.
- Do not put anything else between your smartphone and the wireless charger, such as credit cards, door keys, coins, metal, NFC cards, etc.

---

## Important Safety Instructions

- Avoid dropping.
- Do not disassemble.
- Do not expose to liquids.
- For the safest and fastest charge, use original or certified cables.
- This product is suitable for moderate climates only.
- The maximum ambient temperature during use of this product must not exceed 40°C.
- Open flame sources, such as candles, must not be placed on this product.
- Only use a dry cloth or brush to clean this product.

---

## FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio / TV technician for help.

## **Radiation Exposure Statement**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator & your body.

### **IC Statement**

This device complies with RSS - 216 of Industry Canada. Operation is subject to the condition that this device does not cause harmful interference.

[RSS-Gen Issue 5 March 2019 "&" RSS-Gen numéro 5 mars 2019](#)

[This device contains licence-exempt transmitter\(s\)/receiver\(s\) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS\(s\). Operation is subject to the following two conditions:](#)

[\(1\) This device may not cause interference.](#)

[\(2\) This device must accept any interference, including interference that may cause undesired operation of the device.](#)

[Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.](#)
