# FINISHED PRODUCT LABELING SPECIFICATION

ECO-101430

FLS-1-01580-01

Effective Date: 05-16-17

## Application Instructions (FT):

Front Label: To be located along the line under the battery name and aligned with the right edge. This will work for all FT products and cover the least amount of graphics.

Top Label: To be located on top of valve cover toward the terminal side of battery.

## Application Instructions (N7500/G8D):

Front Label: To be located on terminal side of battery. Label should be centered on strap/handle boss.

Top Label: To be located on battery lid to the right side of the cover and top label.

Required Location:

Date: 08-05-15

DCU-00001351

DCN: WIP-640-04-A-02

# FINISHED PRODUCT LABELING SPECIFICATION

ECO-101430

FLS-1-01580-01

Effective Date: 05-16-17

## Application Instructions (TT/Industrial):

Side Label: To be located on negative terminal side of battery in the top right corner. Should be between handle and right edge.

Top Label: To be located on valve cover between terminals. Should be towards one terminal to allow ample room to attach solid link to battery for many applications.

## Application Instructions (SLI):

Top Label: To be located on valve cover on top of battery. Should be in the handle area towards the left hand side to avoid other possible labeling.

**No Side Label**
